シカゴ・マニュアル・オブ・スタイル 第18版

**The Chicago Manual of Style: The Essential Guide for Writers, Editors, and Publishers. 18th ed**  
(Univ. of Chicago Pr.)

2024 : 09 1200 p. Hardback 9780226817972 ¥14,930

文筆業、編集者、研究者のための執筆・編集ガイドの定番が6年ぶりに改訂

Much has happened in the years since the publication of the seventeenth edition of *The Chicago Manual of Style*. The world has transformed, and the *Manual* has risen to meet the moment. The eighteenth edition of this classic guide for writers, editors, and publishers is the most extensive revision in two decades.

Every chapter has been reexamined with diversity and accessibility in mind, and major changes include updated and expanded coverage of pronoun use and inclusive language, revised guidelines on capitalization, a broader range of examples, new coverage of Indigenous languages, and expanded advice on making publications accessible to people with disabilities. The *Manual's* traditional focus on nonfiction has been expanded to include fiction and other creative genres in coverage of topics such as punctuation and dialogue, and the needs of self-published authors receive wider attention.

The citation chapters have been thoroughly reorganized for the benefit of new and experienced users alike, and the key concepts for editing mathematics have been integrated into the chapters where they will be most useful to generalists. Evolving technologies - from open-access publishing models to AI - are covered throughout. And naturally, there are some well-considered updates to familiar rules, including changes intended to align the *Manual's* recommendations more closely with real-world usage.

As with every new edition, devotees of the *Manual* will find much to discover and ponder.

インデックス 第18版

**Indexes: A Chapter from The Chicago Manual of Style. 18th ed**

The University of Chicago Press Editorial Staff  
(Univ. of Chicago Pr.)

2024 : 10 64 p. Paperback 9780226837680 ¥3,780

シカゴ・マニュアルのインデックス

In this age of searchable text, the need for an index made with human input is sometimes questioned. But a good index can do what a plain search cannot: It gathers all the substantive terms and subjects of the work, sorts them alphabetically, provides cross-references to and from related terms, and includes specific page numbers or other locators or, for electronic formats, direct links to the text. This painstaking intellectual labor serves readers of any longer work, whether it is searchable or not. For searchable texts, an index provides insurance against fruitless queries and unintended results. In a word, a good index makes the text more accessible.

### The Craft of Science Writing: Selections from "The Open Notebook," Expanded Edition. 2nd ed

Carpenter, Siri (ed.)

*Chicago Guides to Writing, Editing, and Publishing* (Univ. of Chicago Pr.)

2024 : 11 365 p. Hardback 9780226830278 ¥22,890 Paperback 9780226830292 ¥5,270

With pieces curated from the archives of science writers' go-to online resource, *The Open Notebook*, this book explores strategies for finding and shaping story ideas, pitching editors, and building a specialty in science writing. It delves into fundamental skills that every science writer must learn, including planning their reporting; identifying, interviewing, and quoting sources; organizing interview notes; and crafting stories that engage and inform audiences. This expanded edition includes new introductory material and nine new essays focusing on such topics as how to establish a science beat, how to find and use quotes, how to critically evaluate scientific claims, how to use social media for reporting, and how to do data-driven reporting. In addition, there are essays on inclusivity in science writing, offering strategies for eradicating ableist language from stories, working with sensitivity readers, and breaking into English-language media for speakers of other languages.

ベルリオーズとその世界

### Berlioz and His World

Brittan, Francesca & Hibberd, Sarah (ed.)

*The Bard Music Festival* (Univ. of Chicago Pr.)

2024 : 08 352 p. 35 line drawings. Hardback 9780226837673 ¥22,890 Paperback 9780226837666 ¥6,970

*Berlioz and His World* takes a deep dive into the composer's complex legacy, tracing lines between his musical and literary output and the scientific, sociological, technological, and political influences that shaped him. Comprising nine essays covering key facets of Berlioz's contribution and six short "object lessons" meant as conversation starters, the book reveals Berlioz as a richly intersectional figure. His very difficulty, his tendency to straddle the worlds of composer, conductor, and critic, is revealed as a strength, inviting new lines of cross-disciplinary inquiry and a fresh look at his European and American reception.

マーラーの交響曲の世界

### Mahler's Symphonic World: Music for the Age of Uncertainty

Berger, Karol

(Univ. of Chicago Pr.)

2025 : 01 384 p. 19 line drawings, 48 tables. Hardback 9780226836027 ¥11,940

Between 1888 and 1909 Gustav Mahler completed nine symphonies; the tenth was left incomplete at his death in 1911. *Mahler's Symphonic World* makes a radical claim: that over his lifetime, the composer pursued a single vision, a single ideal symphony, striving to capture in his music a philosophical outlook on human existence. Writing at the turn of the twentieth century, Mahler found himself in a spiritual situation in which all trust in firm foundations had evaporated. In Karol Berger's analysis, each of Mahler's symphonies reflects his preoccupation with human suffering and transience and his search for sources of possible consolation.

### The Economics of Privacy

Goldfarb, Avi & Tucker, Catherine E. (eds.)

*NBER Conference Report* (Univ. of Chicago Pr.)

2024 : 08 192 p. Hardback 9780226834078 ¥18,910

The falling costs of collecting, storing, and processing data have allowed firms and governments to improve their products and services, but have also created databases with detailed individual-level data that raise privacy concerns. This volume summarizes the research on the economics of privacy and identifies open questions on the value of privacy, the roles of property rights and markets for privacy and data, the relationship between privacy and inequality, and the political economy of privacy regulation.

経済の計測

### The Measure of Economies: Measuring Productivity in an Age of Technological Change

Reinsdorf, Marshall B. & Sheiner, Louise (ed.)

(Univ. of Chicago Pr.)

2024 : 12 368 p. Hardback 9780226836331 ¥12,940

Official measures of gross domestic product (GDP) indicate that productivity growth has declined in the United States over the last two decades. This has led to calls for policy changes from pro-business tax reform to stronger antitrust measures. But are our twentieth-century economic methods actually measuring our twenty-first-century productivity? *The Measure of Economies* offers a synthesis of the state of knowledge in productivity measurement at a time when many question the accuracy and scope of GDP. With chapters authored by leading economic experts on topics such as the digital economy, health care, and the environment, it highlights the inadequacies of current practices and discusses cutting-edge alternatives.

### Democracy in Power: A History of Electrification in the United States

Vaheesan, Sandeep

(Univ. of Chicago Pr.)

2024 : 12 376 p. Hardback 9780226836386 ¥8,960

Until the 1930s, financial interests dominated electrical power in the United States. That changed with President Franklin D. Roosevelt's New Deal which restructured the industry. The government expanded public ownership, famously through the Tennessee Valley Authority, and promoted a new kind of utility: the rural electric cooperative that brought light and power to millions in the countryside. Since then, public and cooperative utilities have persisted as an alternative to shareholder control. *Democracy in Power* traces the rise of publicly governed utilities in the twentieth-century electrification of America.

### Reimagining Operational Excellence: Inspirations from Asia

Kotler, Philip

(Wiley)

2024 : 08 304 p. Hardback 9781394239245 US\$28.00

In *Reimagining Operational Excellence: Inspirations From Asia*, world-renowned marketing guru and bestselling author Philip Kotler delivers a groundbreaking book unveiling the transformative marketing strategies that have propelled Asia to the forefront of the global business arena. In this insightful text, Kotler explores the dynamic competition between Asia and the global West, revealing how it has catalyzed Asia's adoption of incisive and effective marketing practices. The book delves into various dimensions of marketing operations, including quality, cost, delivery, service, creativity, and innovation, highlighting the crucial role of entrepreneurship and leadership in achieving operational excellence. Kotler's analysis extends to significant developments within the global business ecosystem, showcasing how countries like Singapore, Japan, Korea, India, and China are redefining business efficiency and continuous improvement.

### Challenging Inequality: Variation across Postindustrial Societies

Huber, Evelyne & Stephens, John D.

(Univ. of Chicago Pr.)

2024 : 08 376 p. Hardback 9780226834634 ¥22,890 Paperback 9780226834658 ¥6,970

Not all countries are unequal in the same ways or to the same degree. In *Challenging Inequality*, Evelyne Huber and John D. Stephens analyze different patterns of increasing income inequality in post-industrial societies since the 1980s, assessing the policies and social structures best able to mitigate against the worst effects of market inequality. Combining statistical data analysis from twenty-two countries with a comparative historical analysis of Germany, Spain, Sweden, and the United States, Huber and Stephens identify the factors that drive increases in inequality and shape persistent, marked differences between countries. Their statistical analysis confirms generalizable patterns and in-depth country studies help to further elucidate the processes at work.

### Through the Grapevine: Socially Transmitted Information and Distorted Democracy

Carlson, Taylor N.

*Chicago Studies in American Politics* (Univ. of Chicago Pr.)

2024 : 07 232 p. Hardback 9780226834153 ¥22,890 Paperback 9780226834177 ¥6,470

Accurate information is at the heart of democratic functioning. For decades, researchers interested in how information is disseminated have focused on mass media, but the reality is that many Americans today do not learn about politics from direct engagement with the news. Rather, about one-third of Americans learn chiefly from information shared by their peers in conversation or on social media. How does this socially transmitted information differ from that communicated by traditional media? What are the consequences for political attitudes and behavior? Drawing on evidence from experiments, surveys, and social media, Taylor N. Carlson finds that, as information flows first from the media then person to person, it becomes sparse, more biased, less accurate, and more mobilizing. The result is what Carlson calls distorted democracy. Although socially transmitted information does not necessarily render democracy dysfunctional, *Through the Grapevine* shows how it contributes to a public that is at once underinformed, polarized, and engaged.

【経済社会学・社会階級・職業】

エリートに生まれついて：イギリス・エリートの生産と再生産

### Born to Rule: The Making and Remaking of the British Elite

Reeves, Aaron & Friedman, Sam

(Harvard U.P.)

2024 : 09 328 p. Hardback 9780674257719 US\$29.95

Aaron Reeves and Sam Friedman combed through a trove of data in search of an answer, scrutinizing the profiles, interests, and careers of over 125,000 members of the British elite from the late 1890s to today. At the heart of this meticulously researched study is the historical database of *Who's Who*, but Reeves and Friedman also mined genealogical records, examined probate data, and interviewed over 200 leading figures from a wide range of backgrounds and professions to uncover who runs Britain, how they think, and what they want. What they found is that there is less movement at the top than we think. Yes, there has been some progress on including women and Black and Asian Brits, but those born into the top 1 percent are just as likely to get into the elite today as they were 125 years ago. What has changed is how elites present themselves. Today's elite pedal hard to convince us they are perfectly ordinary.

### Some White Folks: The Interracial Politics of Sympathy, Suffering, and Solidarity

Chudy, Jennifer

*Chicago Studies in American Politics* (Univ. of Chicago Pr.)

2024 : 07 280 p. Hardback 9780226834412 ¥22,890 Paperback 9780226834436 ¥6,470

There is racial inequality in America, and some people are distressed over it while others are not. This is a book about white people who feel that distress. For decades, political scientists have studied the effects of white racial prejudice, but Jennifer Chudy shows that white racial sympathy for Black Americans' suffering is also a potent force in modern American politics. Grounded in the history of Black-white relations in America, racial sympathy is unique. It is not equivalent to a low level of racial prejudice or sympathy for other marginalized groups. *Some White Folks* reveals how racial sympathy shapes a significant number of white Americans' opinions on policy areas ranging from the social welfare state to the criminal justice system. Under certain circumstances, it can also spur action?although effects on political behavior are weaker and less consistent, for reasons Chudy examines.

### From Small Talk to Microaggression: A History of Scale

Lempert, Michael

(Univ. of Chicago Pr.)

2024 : 12 336 p. Hardback 9780226832487 ¥22,890 Paperback 9780226832500 ¥6,470

In this ambitious, wide-ranging book, anthropologist Michael Lempert offers a conceptual history that explores how, why, and with what effects we have come to think of interactions as “scaled.” Focusing on US-based sciences of interaction from 1930 to 1980, Lempert meticulously traces efforts to study conversation microscopically and shows how scale-making has defined pioneering work in sociology, anthropology, and linguistics. Exploring talk therapy and group dynamics studies, social psychology and management science, conversation analysis, “micropolitics,” and more, Lempert shows how scale became a defining problem across the behavioral sciences and how new tools and technologies were developed to get to the heart of social life at its most granular.

二極化する夢：グローバル化する韓国の江南区とポップカルチャー

### Polarizing Dreams: Gangnam and Popular Culture in Globalizing Korea

Kim, Pil Ho

*Asia Pop!* (Univ. of Hawaii Pr.)

2024 : 12 264 p. Hardback 9780824899851 US\$75.00 Paperback 9780824897512 US\$30.00

Anyone genuinely curious about what makes South Korean pop culture tick should look no further than Gangnam. Celebrated in a song by an unlikely K-pop superstar named Psy in 2012, Gangnam is the epicenter of *Hallyu*, the Korean Wave. It is an exclusive zone of privilege and wealth that has lured pop culture industries since the 1980s and fueled the aspirations of Seoul’s middle class, producing in its wake the “dialectical images” of the modern city described by Walter Benjamin: sweet dreams and nightmares, visions of heaven and hell, scenes of spectacular rises and great falls. In *Polarizing Dreams*, Pil Ho Kim presents South Korea’s Gangnam-style urban development as a unique case of cultural globalization in the age of social polarization.

アジアのタトゥーの伝統

### Tattoo Traditions of Asia: Ancient and Contemporary Expressions of Identity

Krutak, Lars

(Univ. of Hawaii Pr.)

2024 : 10 520 p. Hardback 9780824895709 US\$90.00

For millennia, tattoos have documented the history of humanity one painful mark at a time. They form a visual language on the skin, expressing an individual’s desires and fears as well as cultural values, family ties, and spiritual beliefs on the surfaces of the body. The Indigenous peoples of Asia have created some of the world’s oldest and most distinctive tattoos, but their many contributions to body art and practice have been largely overlooked. *Tattoo Traditions of Asia* is the first single volume dedicated to the anthropological study of an ancient cultural practice and artform that spans many countries and societies, ancestral lands, and contemporary communities across the continent and its islands.

日本におけるオカルト探求と超自然的な遊戯

### Occult Hunting and Supernatural Play in Japan

Miller, Laura

(Univ. of Hawaii Pr.)

2024 : 08 236 p. Hardback 9780824896164 US\$72.00 Paperback 9780824898410 US\$28.00

Written from an interdisciplinary cultural studies perspective, *Occult Hunting and Supernatural Play in Japan* interlaces history, art, literature, religion, media studies, and anthropology to explore ubiquitous yet understudied activities such as having one’s fortune told; visiting “power spots,” locations thought to hold exceptional supernatural energy; and playing with new types of tarot decks. Book chapters also focus on material religion, including objects like good luck amulets and votive plaques, Taoist paper talismans, pilgrim stamps, and ancient curved beads called magatama. Tracing their histories and transformations, Miller insists that these forms of visual and material religion and their related activities are neither trivial nor simply commercial gambits. Rather, they provide insights into the realms of creative exploration, pleasure, and spiritual development in the lives of girls and young women.

アメリカの高齢者殺し：それはどのように始まり、どう防ぐか

**American Eldercide: How It Happened, How to Prevent It**

Gullette, Margaret Morganroth

(Univ. of Chicago Pr.)

2024 : 10 328 p. Hardback 9780226827766 ¥5,970

Twenty percent of the Americans who have died of COVID since 2020 have been older and disabled adults residing in nursing homes - even though they make up fewer than one percent of the US population. Something about this catastrophic loss of life in government-monitored facilities has never added up. Until now. In *American Eldercide*, activist and scholar Margaret Morganroth Gullette investigates this tragic public health crisis with a passionate voice and razor-sharp attention to detail, showing us that nothing about it was inevitable. By unpacking the decisions that led to discrimination against nursing home residents, revealing how governments, doctors, and media reinforced ageist or ableist biases, and collecting the previously little-heard voices of the residents who survived, Gullette helps us understand the workings of what she persuasively calls an eldercide.

【社会勢力と政治】

道徳的問題：中絶・同性愛者権利に関する世論のアメリカの宗教・政治への影響

**Moral Issues: How Public Opinion on Abortion and Gay Rights Affects American Religion and Politics**

Goren, Paul & Chapp, Christopher

*Chicago Studies in American Politics* (Univ. of Chicago Pr.)

2024 : 12 224 p. Hardback 9780226836652 ¥22,890 Paperback 9780226836676 ¥6,470

Drawing on wide-ranging evidence, Paul Goren and Christopher Chapp show that views on abortion and gay rights are just as durable and politically impactful - and often more so - than political and religious identities. Goren and Chapp locate the lasting strength of stances on abortion and gay rights in the automatic, visceral emotions that the media has primed since the late 1980s. *Moral Issues* examines how attitudes toward these moralized issues affect, and can sometimes even disrupt, religious and partisan identities. Indeed, over the last thirty years, these attitudes have accelerated the rise of the religious "nones," who have no religious affiliation, and promoted moral sorting into the Democratic and Republican parties.

**Parties under Pressure: The Politics of Factions and Party Adaptation**

Dilling, Matthias

(Univ. of Chicago Pr.)

2024 : 08 320 p. Hardback 9780226830230 ¥22,890 Paperback 9780226830254 ¥6,470

日本の政党についても言及あり

*Parties under Pressure* examines why some parties adapt meaningfully to social, economic, and political transformations while others flounder, focusing especially on the fate of Western Europe's Christian democratic parties. Matthias Dilling reveals the under-appreciated importance of party factions. While very high levels of factionalism are counter-productive and create paralysis, more moderate levels of factionalism help parties to adapt by giving visibility to fresh groups and ideas. Dilling draws on extensive archival research in Germany, Italy, and Austria, as well as evidence from France, Japan, and beyond. Taking a comparative-historical approach, *Parties under Pressure* sheds new light on parties' varying records of adaptive reforms over more than seventy-five years.

【政党・選挙・立法府】

ナショナリズム化した時代のアメリカの政治における危険な新論理

**Partisan Nation: The Dangerous New Logic of American Politics in a Nationalized Era**

Pierson, Paul & Schickler, Eric

(Univ. of Chicago Pr.)

2024 : 09 336 p. Hardback 9780226836430 ¥5,770

In this paradigm-shifting book, political scientists Paul Pierson and Eric Schickler bring a sharp new perspective to today's challenges. Attentive to the different coalitions, interests, and incentives that define the Democratic and Republican parties, they show how contemporary polarization emerged in a rapidly nationalizing country and how it differs from polarization in past eras. In earlier periods, three key features of the political landscape - state parties, interest groups, and media - varied locally and reinforced the nation's stark regional diversity. But this began to change in the 1960s as the two parties assumed clearer ideological identities and the power of the national government expanded, raising the stakes of conflict. Together with technological and economic change, these developments have reconfigured state parties, interest groups, and media in self-reinforcing ways. The result is that today's polarization is self-perpetuating - and intensifying.

【行政学】

分断の時代における大統領権限の果たされなかった約束

**False Front: The Failed Promise of Presidential Power in a Polarized Age**

Lowande, Kenneth

*Chicago Studies in American Politics* (Univ. of Chicago Pr.)

2024 : 10 232 p. Hardback 9780226837239 ¥22,890 Paperback 9780226837253 ¥5,970

Border walls, school bathrooms, student loans, gun control, diversity, abortion, climate change - today, nothing seems out of reach for the president's pen. But after all the press releases, ceremonies, and speeches, shockingly little gets done. The American presidency promises to solve America's problems, but presidents' unilateral solutions are often weak, even empty. Kenneth Lowande argues this is no accident. The US political system is not set up to allow presidents to solve major policy problems, yet it lays these problems at their doorstep, and there is no other elected official better positioned to attract attention by appearing to govern. Like any politician, presidents are strategic actors who seek symbolic wins. They pursue executive actions, even when they know that these will fail, because doing so allows them to put on a compelling show for key constituencies.

学問の自由：職業的規範からアメリカ合衆国憲法修正第1条まで

**Academic Freedom: From Professional Norm to First Amendment Right**

Rabban, David M.

(Harvard U.P.)

2024 : 08 380 p. Hardback 9780674291058 US\$100.00 Paperback 9780674295957 US\$29.95

In subsuming academic freedom under the First Amendment, Rabban emphasizes the societal value of the contribution to knowledge made by the expert speech of professors, the classic justification for academic freedom in the influential 1915 Declaration of the American Association of University Professors (AAUP). Any indication that professors might be disciplined because people without academic training disagree with their scholarly views would undermine confidence in the integrity of their work and therefore their ability to perform this vital function on behalf of the public. Rabban argues that academic freedom fosters two central First Amendment values recognized by courts in a wide range of contexts: the production and dissemination of knowledge and the contribution of free expression to democratic citizenship.

**Campus Free Speech: A Pocket Guide**

Sunstein, Cass R.

(Harvard U.P.)

2024 : 09 160 p. Hardback 9780674298781 US\$22.95

In this pragmatic, no-nonsense explainer, Cass Sunstein takes us through a wide range of scenarios involving students, professors, and administrators. He discusses why it's consistent with the First Amendment to punish students who shout down a speaker, but not those who chant offensive slogans; why a professor cannot be fired for writing a politically charged op-ed, yet a university might legitimately consider an applicant's political views when deciding whether to hire her. He explains why private universities are not legally bound by the First Amendment yet should, in most cases, look to follow it. And he addresses the thorny question of whether a university should officially take sides on public issues or deliberately keep the institution outside the fray.

**Historical Gloss and Foreign Affairs: Constitutional Authority in Practice**

Bradley, Curtis A.

(Harvard U.P.)

2024 : 10 288 p. Hardback 9780674292055 US\$49.95

In the more than 230 years since the Constitution took effect, the constitutional law governing the conduct of foreign affairs has evolved significantly. But that evolution did not come through formal amendments or Supreme Court rulings. Rather, the law has been defined by the practices of Congress and the executive branch, also known as "historical gloss." Curtis A. Bradley documents this process in action. He shows that expansions in presidential power over foreign affairs have often been justified by reference to historical gloss, but that Congress has not merely stepped aside. Belying conventional accounts of the "imperial presidency" in foreign affairs, Congress has also benefited from gloss, claiming powers for itself in the international arena not clearly addressed in the constitutional text and disrupting claims of exclusive presidential authority.

**Research Handbook on Law and Psychology**

Hollander-Blumoff, Rebecca (ed.)

*Research Handbooks in Law and Society series* (Edward Elgar)

2024 : 08 510 p. Hardback 9781800881914 £225.00

Featuring contributions from a diverse array of expert academics, this Research Handbook showcases a number of sophisticated methodologies including field research, survey work, and novel statistical analyses. It explores not only how psychological research can affect legal doctrine and theory but also how legal doctrine and theory ought to influence psychological research. Individual chapters survey key areas such as jury decision-making, eyewitness testimony, false confessions, juvenile justice, and the role of social science research and standards of proof in the courtroom. Recently developed perspectives on law and psychology are also critically examined, demonstrating how decision-making processes can play a variety of roles in legal contexts.

*Research Handbooks in Energy Law series* (Edward Elgar)

2024 : 09 726 p. Hardback 9781035328017 £270.00

This thoroughly revised second edition presents a comprehensive overview of the most important contemporary research in EU energy law and policy. The Research Handbook brings together a diverse array of experts, highlighting the multifaceted nature of this continually developing field. Divided into four broad thematic areas, the book considers in turn the various elements of EU energy law and policy, namely its institutional, external, economic, social, legal, environmental, and technological aspects. New chapters in this second edition discuss the EU's response to Russia's invasion of Ukraine, India-EU relations, EU-Gulf cooperation, and the importance of energy trade agreements for the recognition of environmental refugees. Presenting cutting-edge research on the major energy policy challenge which the EU will face in the coming years, this Research Handbook expertly situates the field of energy law and policy in the broader context of international economic law and governance.

### Research Handbook on Disasters and International Law. 2nd ed

Aronsson-Storrier, Marie & Breau, Susan C. (ed.)

*Research Handbooks in International Law series* (Edward Elgar)

2024 : 09 532 p. Hardback 9781803924205 £230.00

This thoroughly revised second edition investigates the role of international law in preventing, preparing for and responding to both 'sudden' and 'slow-onset' disasters. Expert contributors take a new look at disasters and international law, covering key concepts such as disaster risk, frameworks which regulate response and recovery from a domestic and regional perspective, and questions concerning vulnerability and marginalisation. With both revised and entirely new chapters, this Research Handbook explores international law in light of significant contemporary global challenges and developments in theory, law and practice. It also reflects on the COVID-19 pandemic and the lessons learnt to implement change for future crises.

### Research Handbook on Marine Insurance Law

Gurses, Ozlem (ed.)

*Research Handbooks in Private and Commercial Law series* (Edward Elgar)

2024 : 03 392 p. Hardback 9781803926674 £200.00

Bringing together a vast array of expert legal scholars and practitioners, this book adeptly relates marine insurance to international trade, cyber insurance and pandemic exclusions. Chapters cover protection and indemnity insurance, marine insurance fraud and emerging technology, total losses under marine policies and the insurance requirements in Incoterms® 2010 and 2020. Offering a detailed assessment of crucial legal principles including duty of utmost good faith, subrogation in co-insurance, wilful misconduct of the assured and conflicts of law, this Research Handbook provides a vital contribution to this continually developing legal field.

ジョルジュ・バタイユ戦後論文集：第2巻 1949-1951年

### **Critical Essays, Vol. 2: 1949-1951**

Bataille, Georges / Noys, Benjamin & Toscano, Alberto (ed.)

*The French List* (Seagull Books)

2024 : 12 390 p. Hardback 9781803094342 ¥5,770

In the aftermath of World War II, French thinker and writer Georges Bataille forged a singular path through the moral and political impasses of his age. In 1946, animated by “a need to live events in an increasingly conscious way,” and to reject any compartmentalization of intellectual life, Bataille founded the journal *Critique*. Continuing the publication of his postwar writings, this second book in a three-volume collection of Bataille’s work collects his essays and reviews from the years 1949 to 1951. In this period of intellectual isolation and intense reflection, Bataille developed and refined his genealogy of morality through a sustained reflection on the fate of the sacred in the modern world.

### **A Life in Letters**

Weil, Simone / Chenavier, Robert & Devaux, Andre A. (ed.)

(Harvard U.P.)

2024 : 09 384 p. Hardback 9780674292376 US\$37.95

The first complete collection of Weil’s missives to her family, *A Life in Letters* offers new insight into her personal relationships and experiences. The letters abound with vivid illustrations of a life marked by wisdom as much as seeking. The daughter of a bourgeois Parisian Jewish family, Weil was a troublemaking idealist who preferred the company of miners and Russian exiles to that of her peers. An extraordinary scholar of history and politics, she ultimately found a home in Christian mysticism. Weil paired teaching with poetry and even dabbled in mathematics, as evidenced by her correspondence with her brother, André, who won the Kyoto Prize in 1994 for the famed Weil Conjectures.

### **Buddhism and Healing in the Modern World**

Salguero, C. Pierce et al. (ed.)

(Univ. of Hawaii Pr.)

2024 : 09 277 p. Hardback 9780824897697 US\$75.00

Buddhist healing activities are much more diverse than the narrow range of mindfulness techniques that have dominated scholarly and popular focus. From the community-based healing practices of Asian American Buddhists and transnational Tantric sex therapy retreats to concerns about balancing being contemporary with being authentically Buddhist, contributors explore how Buddhists have rethought the mind-body relationship against the backdrop of the modernization and globalization of Buddhism. They examine Buddhists navigating the differences and commonalities that exist in their practice and modern systems of mental and physical healthcare, paying attention to how they have negotiated shifting configurations of legitimacy, authority, and authenticity. Through historical and ethnographic case studies, the work details these ruptures and reconciliations in Japan, Sri Lanka, Tibet, Korea, and the U.S., in addition to mapping the transnational pathways of exchange as knowledge about Buddhism and medicine has traveled between Asia and the West.

### **Countless Sands: Medieval Buddhists and Their Environments**

Moser, Jeffrey & Protass, Jason (ed.)

(Univ. of Hawaii Pr.)

2024 : 12 336 p. Hardback 9780824895730 US\$72.00

*Countless Sands* presents engaging analyses of the diverse relationships between Buddhism and the environment that existed in medieval Asia. Recent years have witnessed a surge in publications across the humanities that advance powerful ethical and political arguments to account for the human failure to respond effectively to global climate change. While the contributors to this volume are attuned to this challenge, rather than present explicit political arguments, they pursue a subtler effort to historicize the environment as a site and subject of Buddhist practice while providing research grounded in rigorous analysis of complex and fragmentary sources. The volume thereby mitigates against the Orientalist, East-West binaries that have long informed the invocation of Buddhism in Euro-American environmental discourses.

仏僧と儒学者：李氏朝鮮後期における仏教の変容

**Monks and Literati: The Transformation of Buddhism in Late Choson Korea**

Kim, Seong Uk

(Univ. of Hawaii Pr.)

2024 : 11 252 p. Hardback 9780824897598 US\$75.00

Scholars have long debated the relationship between Buddhist monks and Confucian literati during the late Chosŏn (1700-1850), when the Korean state adopted anti-Buddhist policies. On the one hand, it is understood that literati openly displayed hostility toward monks and engineered their persecution; on the other, they were known to have privately supported Buddhism, helping the religion persevere, even thrive, in the Confucian society. In *Monks and Literati*, the first book-length study in English to focus on Buddhism in late Chosŏn Korea, Seong Uk Kim argues that such opposing views overemphasize the role of literati and depict monks as passive actors. Kim applies sociologist Ann Swidler's concept of repertoire - the social, cultural, and religious inventory of symbols, rules, and skills for constructing strategies of action - as an analytical tool to reconcile the two narratives and provide a more nuanced and comprehensive picture of the complex literati-monk relationship.

『正法眼蔵』英訳版 全8巻

**Treasury of the True Dharma Eye: Dogen's Shobogenzo. 8 vols**

Shapin, Steven

(Univ. of Hawaii Pr.)

2024 : 11 3232 p. Paperback 9780824899257 US\$250.00

This publication represents an English rendering of one of the great classics of Japanese Buddhism, the *Shōbōgenzō* 正法眼蔵, by Dōgen 道元 (1200-1253), founder of the Sōtō Zen school. The translation was produced by the Sōtō Zen Text Project, a team of scholars working under the auspices of the Administrative Headquarters of Sōtō Zen Buddhism. It is based on the Japanese edition of the *Shōbōgenzō* in Kawamura Kōdō 河村孝道, ed., *Dōgen zenji zenshū* 道元禅師全集, volumes 1-2, which provides what are thought to be the most authoritative compilations of Dōgen's *Shōbōgenzō* essays, in seventy-five and twelve chapters, supplemented by sixteen additional texts.

党の良心：胡耀邦、中国共産党の改革者

**The Conscience of the Party: Hu Yaobang, China's Communist Reformer**

Suettinger, Robert L.

(Harvard U.P.)

2024 : 10 488 p. Hardback 9780674272804 US\$39.95

*The Conscience of the Party* is the comprehensive, authoritative biography of the Chinese Communist Party's most avid reformer and its general secretary for a key stretch of the 1980s. A supremely intelligent leader with an exceptional populist touch, Hu Yaobang was tapped early by Mao Zedong as a capable party hand. But Hu's principled ideas made him powerful enemies, and during the Cultural Revolution he was purged, brutally beaten, and consigned to forced labor. After Mao's death, Hu rose again as an ally of Deng Xiaoping, eventually securing the party's top position. In that role, he pioneered many of the economic reforms subsequently attributed to Deng. But Hu also pursued political reforms with equal vigor, pushing for more freedom of expression, the end of lifetime tenure for CCP leaders, and the dismantling of Mao's personality cult. Alarmed by Hu's growing popularity and increasingly radical agenda, Deng had him purged again in 1987.

グローバル・アジア

**Global Asias: Tactics & Theories**

Chen, Tina & Eubanks, Charlotte (ed.)

*Global Asias: Method, Architecture, Praxis* (Univ. of Hawaii Pr.)

2024 : 12 328 p. Hardback 9780824894061 US\$75.00

*Global Asias: Tactics & Theories* is the inaugural volume in an exciting new series that explores critical concerns animating Global Asias scholarship. It challenges the silos of academic knowledge formation that currently make legible and organize the study of Asia and its multiple diasporas. Transits, Indigeneity, Epistemology, Language, and A/Geography: These keywords highlight potential overlaps and points of disagreement between area studies, ethnic studies, and diaspora studies. Through an inventive approach and structure, the book exemplifies how the collaborative ethos of Global Asias praxis can catalyze new methods of scholarship and pedagogy - and create innovative models of academic knowledge-production. The editors offer a substantive overview of the emergent multidisciplinary field of Global Asias followed by a set of collaboratively authored research forums and pedagogical materials by a varied group of scholars working across ranks, disciplines, fields, geographies, and languages.

在日か、帰化か：日本における国家・市民権・抵抗

**Being Korean, Becoming Japanese?: Nationhood, Citizenship, and Resistance in Japan**

Shin, Hwaji

(Univ. of Hawaii Pr.)

2024 : 08 288 p. Hardback 9780824896140 US\$72.00 Paperback 9780824898427 US\$28.00

Hwaji Shin challenges the persistent belief that Japan's ethno-racial homogeneity is responsible for its restrictive citizenship and immigration laws. She argues that the relationships between nationhood, citizenship, and migration in Japan have always been fluid and historically contingent rather than causal or static. Her work examines the nexus of these three concepts from a subaltern perspective and illuminates the ways in which non-state, marginalized actors directly influenced the state's development of citizenship and immigration policies. It explores the failures and triumphs of Koreans resisting Japanese ethno-racial oppression through stories of ordinary lives that have been disrupted by wars, elites' interests, and geopolitics. *Being Korean, Becoming Japanese?* draws on rich historical data to provide a powerful narrative about how Koreans in Japan have defiantly survived and thrived to impact the country's ideas and policies of nationhood, citizenship, and migration for more than a century.

初期琉球史

**Early Ryukyuan History: A New Model**

Smits, Gregory

(Univ. of Hawaii Pr.)

2024 : 07 342 p. Hardback 9780824897635 US\$75.00

The Ryukyu islands have been inhabited by humans for over 30,000 years. Their modern population, however, did not come from stone-age ancestors, nor did distinctive forms of Ryukyuan culture, such as sacred groves or stone-walled castles, emerge from within the islands. Instead, different groups of people lived in the Ryukyu islands at various points in history. Starting with the earliest extant human remains and ending with the formation of a centralized state in the early 1500s, *Early Ryukyuan History* traces the people, culture, technologies, goods, and networks that entered different parts of Ryukyu over time. In the process, it synthesizes decades of research in archaeology and anthropology, recent advances in genetic evidence, and conventional documentary sources to advance a new model for the early development of the Ryukyu islands, thoroughly rewriting early Ryukyuan history.

グリーンスター・ジャパン：エスペラント語と国際言語の問題 1880-1945年

**Green Star Japan: Esperanto and the International Language Question, 1880-1945**

Rapley, Ian

(Univ. of Hawaii Pr.)

2024 : 10 224 p. Hardback 9780824897543 US\$75.00

During the first half of the twentieth century, a wide range of the Japanese populace was drawn to the possibilities offered by the proposed language known as Esperanto. Created in the nineteenth century by a European, L. L. Zamenhof, Esperanto seemed an unlikely candidate for Japanese interest, but to its advocates it was a potential solution to the international language problem: the question of how to effectively communicate across linguistic and national borders. Using the history of Japanese Esperanto up to the end of the Second World War, in *Green Star Japan* Ian Rapley argues that scholars of modern Asia should pay serious attention to both Esperanto and the international language problem.

新南山版日本の宗教ガイドブック

**The New Nanzan Guide to Japanese Religions**

McMullen, Matthew D. & Thomas, Jolyon Baraka (ed.)

*Nanzan Library of Asian Religion and Culture* (Univ. of Hawaii Pr.)

2024 : 12 522 p. Hardback 9798880701322 US\$52.00

For nearly two decades, the *Nanzan Guide to Japanese Religions* has served as a valuable resource for students and scholars of religion in Japan. This exciting update expands the audience to include non-specialists of Japan while also complicating the notions of "Japan" and "religion." Asking the provocative question "why study Japanese religions?" the editors argue that studying Japan is vital for the academic study of religion writ large and make a case for the continued importance of religious topics in Japan studies, broadly conceived.

【日本研究】

海洋日本：太平洋史・世界史における日本列島

**Oceanic Japan: The Archipelago in Pacific and Global History**

Huebner, Stefan et al. (ed.)

(Univ. of Hawaii Pr.)

2024 : 11 352 p. Hardback 9780824897680 US\$75.00

Japan's oceans demand our attention. Violent, prolific, and changeful, they define life and death on the archipelago: pushing the shore under the rush of tsunami, charging typhoon circulation, feeding millions, and seeding conflicts over territory and resources. And yet, Japan studies remains largely beholden to a terrestrial view of the world that is at odds with the importance of the sea. This "terrestrial bias" also means that on those occasions when oceans are recognized they are most often presented as dividers or connectors - spaces in between rather than rich ecologies and meaningful sites. *Oceanic Japan* is meant to help readers re-envision Japanese history in order to show how the seas created the country that we know today.

【日本研究】

日本における宗教とスポーツ

**Religion and Sport in Japan**

Smith, Zachary T. & Frost, Dennis J. et al. (eds.)

(Univ. of Hawaii Pr.)

2024 : 09 206 p. Hardback 9780824897666 US\$72.00

Religion has long been a part of the Japanese sport tradition - from Shugendō practitioners offering sumo bouts to the gods to soccer players of all ages praying for success at Shintō shrines; from the use of meditation and ritual in martial arts to gain focus or superhuman abilities to religious organizations sponsoring sporting events and teams and school sports clubs. *Religion and Sport in Japan* brings together historians and sport and religious studies specialists from Japan, the US, and Europe to address sport's ties to corporate and national identity, politics, environmentalism, ritual, and sacred space. Major themes discussed include the spiritual geographies of sport, sport as invented tradition, technologies of self, material culture, and civil religion. The chapters are written so that sport historians with no background in the study of Japan or religious studies scholars who have never before examined the world of sport will find the material accessible.

M. ウィリアム・スティール（国際基督教大学 名誉教授）著『日本の近代性再考』

**Rethinking Japan's Modernity: Stories and Translations**

Steele, M. William

*Harvard East Asian Monographs* (Harvard U.P.)

2024 : 10 372 p. Hardback 9780674297562 US\$59.95

In *Rethinking Japan's Modernity*, M. William Steele takes a new look at the people, places, and events associated with Japan's engagement with modernity, starting with American Commodore Matthew Perry's arrival in Japan in 1853. In many cases, this new look derives from visual sources, such as popular broadsheets, satirical cartoons, ukiyo-e and other woodblock prints, postcards, and photographs. The book illustrates the diverse, and sometimes conflicting, perceptions of people who experienced the unfolding of modern Japan. It focuses both on the experiences of people living the events "at that time" and on the reflections of others looking back.

**The Teaching and Teachings of Temple Buddhism in Contemporary Japan**

Covell, Stephen G.

(Univ. of Hawaii Pr.)

2024 : 10 248 p. Hardback 9780824897574 US\$75.00

How have Buddhist teachings come to be in modern and contemporary Japan and how are they taught? This pioneering work seeks to answer these questions by highlighting the public teachings of Temple Buddhism institutions, in particular Temple Buddhism kindergartens and Buddhist secondary schools and colleges. The community outreach provided by these Buddhist facilities is far greater than any other with the possible exception of funerals yet until now it has received little attention from scholars of Japanese religion.

【地球科学・地質学・鉱物学】

海面の歴史

### Sea Level: A History

Hardenberg, Wilko Graf von

*Oceans in Depth* (Univ. of Chicago Pr.)

2024 : 08 200 p. Hardback 9780226831831 ¥5,470

*Sea Level* provides a detailed and innovative account of how mean sea level was first defined, how it became the prime reference point for surveying and cartography, and how it emerged as a powerful mark of humanity's impact on the earth. With Hardenberg as our guide, we traverse the muddy spaces of Venice and Amsterdam, the coasts of the Baltic Sea, the Panama and Suez canals, and the Himalayan foothills. Born out of Enlightenment studies of physics and quantification, sea level became key to state-sponsored public works, colonial expansion, Cold War development of satellite technologies, and recognizing the climate crisis. Mean sea level, Hardenberg reveals, is not a natural occurrence - it has always been contingent, the product of people, places, politics, and evolving technologies. As global warming transforms the globe, Hardenberg reminds us that a holistic understanding of the ocean and its changes requires a multiplicity of reference points.
