瀧口修造選詩集

**A Kiss for the Absolute: Selected Poems of Shuzo Takiguchi**

Takiguchi, Shuzo / Bang, Mary Jo & Tanaka, Yuki (trans.)

*The Lockert Library of Poetry in Translation* (Princeton U.P.)

2024 : 11 208 p. Hardback 9780691263892 ¥10,670 Paperback 9780691263885 ¥3,870

日本におけるシュルレアリスムを牽引した詩人・美術批評家である瀧口修造の初の英訳詩集。見開きに日本語と英訳された詩を併記。

In 1923, Shuzo Takiguchi's first year at Tokyo's Keio University was cut short by the Great Kanto Earthquake, which nearly destroyed the Japanese capital. When he returned to school two years later, he was hit by a second earthquake - French Surrealism. Takiguchi (1903-1979) began to write surrealist poems, translate surrealist writers, curate exhibitions of surrealist art, write art criticism, and, later, paint, helping introduce Surrealism to Japan. He eventually became a major Japanese artistic and cultural figure whose collected works number fourteen volumes. In *A Kiss for the Absolute*, Mary Jo Bang, winner of the National Book Critics Circle Award, and her fellow poet and translator Yuki Tanaka present the first collection in English of Takiguchi's ingenious, playful, and erotic poems, complete with an introduction and the original Japanese texts on facing pages. Takiguchi's obvious interest in style is perfectly wed to his daredevil rhetorical antics. His poems read as if they could have been written today, yet they are so original that they couldn't have been written by anyone else. Bang and Tanaka's skillful, colloquial translations offer English readers a long-overdue introduction to this important poet.

**The Business of Being a Writer. 2nd ed**

Friedman, Jane

*Chicago Guides to Writing, Editing, and Publishing* (Univ. of Chicago Pr.)

2024 : 04 384 p. Paperback 9780226838656 ¥5,040

Jane Friedman is one of today's leading experts on the publishing industry. Through her website, social media presence, online courses, email newsletters, and other media, she helps writers understand how to navigate the industry with confidence and intentionality. This book advises writers on building a platform in a way that aligns with their values; critical mindset issues that might sabotage their efforts before they even begin; how to publish books and short works strategically; and what it means to diversify income streams beyond book sales. For this second edition, Friedman has updated every topic to reflect how the industry has evolved over the past half-decade. New features include a section on business and legal issues commonly faced by writers, exercises at the end of each chapter, and a wealth of sample materials posted on a companion website.

簡明な英語で書く科学論文の書き方 第2版

**Writing Science in Plain English. 2nd ed**

Greene, Anne E.

*Chicago Guides to Writing, Editing, and Publishing* (Univ. of Chicago Pr.)

2025 : 04 128 p. Paperback 9780226825038 ¥3,690

Scientific writing is often dry, wordy, and difficult to understand. But, as biologist and experienced teacher of scientific writing Anne E. Greene shows in *Writing Science in Plain English*, writers from all scientific disciplines can learn to produce clear, concise prose by mastering just a few simple principles. This short, focused guide presents roughly a dozen such principles based on what readers need to understand complex information, including concrete subjects, strong verbs, consistent terms, organized paragraphs, and correct sentence structure. Greene illustrates each principle with real-life examples of both good and bad writing and shows how bad writing might be improved. She ends each chapter with revision exercises (and provides suggested answers in a separate key) so that readers can come away with new writing skills after just one sitting. To help readers understand the grammatical terms used in the book, an appendix offers a refresher course on basic grammar. For this second edition, Greene has incorporated the latest research on what makes writing effective and engaging and has revised or replaced exercises and exercise keys where needed. She has also added new features that make it easier to navigate the book.

バイリンガル教育とバイリンガリズム 第8版

**Foundations of Bilingual Education and Bilingualism. 8th ed**

Baker, Colin & Wright, Wayne E.

*Bilingual Education and Bilingualism* (Multilingual Matters)

2025 : 05 625 p. Hardback 9781836680543 £39.95 Paperback 9781836680536 £39.95

The eighth edition of this bestselling textbook has been revised and updated to provide a comprehensive and accessible introduction to bilingualism and bilingual education in an everchanging world. Written in a compact and clear style, the book covers all the crucial issues in bilingualism at individual, group and societal levels.

【音楽】

ヴェルディ作 『イル・トロヴァトーレ』

**Le trovère**

Verdi, Giuseppe

*The Works of Giuseppe Verdi Series I: Opera* (Univ. of Chicago Pr.)

2025 : 04 704 p. Hardback 9780226455709 ¥87,300

By the time *Le trovère* premiered at the Paris Opéra in 1857, Giuseppe Verdi had first-hand knowledge of the unique demands of French theater. He had adapted his earlier work *I Lombardi alla prima crociata* (La Scala, 1843) as *Jérusalem* in 1847, and in 1855 he composed *Les vêpres siciliennes*, especially for the Opéra. *Il trovatore*, set in Spain against the backdrop of civil unrest, was especially suited to Parisian tastes, which required spectacular performances with plenty of choreography. Verdi expanded the score with a four-part ballet in the third act and rewrote the ending, where he introduced a reprise of his celebrated "Miserere," which is first heard at the start of the fourth act. By all accounts, the resulting work displayed extraordinary musical and dramatic efficacy and, after a successful premiere, *Le trovère* remained in the Opéra repertory through the opening decades of the twentieth century.

帝国の陰で：占領下日本のアート

**In the Shadow of Empire: Art in Occupied Japan**

Volk, Alicia

(Univ. of Chicago Pr.)

2025 : 05 464 p. 44 color, 78 b/w. Hardback 9780226837901 ¥10,670

Alicia Volk brings to light a significant body of postwar Japanese art, exploring how it accommodated and resisted the workings of the American empire during the early Cold War. Volk's groundbreaking account presents the points of view of Japanese artists and their audiences under American occupation and amid the ruins of war. Each chapter reveals how artists embraced new roles for art in the public sphere - at times by enacting radical critiques of established institutions, values, and practices - and situates a range of compelling art objects in their intersecting artistic and political worlds.

偽りの夜明け：ニューディール政策と回復の約束

**False Dawn: The New Deal and the Promise of Recovery, 1933-1947**

Selgin, George

*Markets and Governments in Economic History* (Univ. of Chicago Pr.)

2025 : 04 384 p. Hardback 9780226832937 ¥6,790

But "the thing about bold experiments," economist George Selgin reminds us, "is that they often fail." In *False Dawn* Selgin draws on both contemporary sources and numerous studies by economic historians to show that, although steps taken during the Roosevelt administration's first days raised hopes of a speedy recovery from the Great Depression, instead of fulfilling those hopes, subsequent New Deal policies proved so counterproductive that over seventeen percent of American workers - more than the peak unemployment rate during the COVID-19 crisis - were still either unemployed or on work relief six years later. By distinguishing the New Deal's successes from its failures, and explaining how the U.S. finally managed to lay the specter of mass unemployment to rest, Selgin draws salient lessons for dealing with future recessions.

ゲームを嫌え：人生・愛・仕事のための経済学的裏技

### Hate the Game: Economic Cheat Codes for Life, Love, and Work

Fairweather, Daryl

(Univ. of Chicago Pr.)

2025 : 04 272 p. Hardback 9780226839523 ¥4,850

In *Hate the Game*, Fairweather fixes her expertise and service on navigating the earliest economic inflection points of adult life: whether to go to college and for how long; partnering, having kids, both, or neither; getting, keeping, and changing jobs; and where to live and how to pay for it. She speaks in actionable terms about what the economy means for individual people, especially those who have the sneaking suspicion they're losing out. Set against her own experiences and enriched with lessons from history, science, and pop culture, Fairweather instructs readers on how to use game theory and behavioral science to map out options and choose directions while offering readers a sense of control and agency in an economy where those things are increasingly rare.

私たちの経済行動を無意識に形成する社会的圧力

### Irrational Together: The Social Forces That Invisibly Shape Our Economic Behavior

Hayes, Adam S.

(Univ. of Chicago Pr.)

2025 : 06 256 p. Hardback 9780226839295 ¥22,310 Paperback 9780226839318 ¥4,660

In *Irrational Together*, economic sociologist Adam S. Hayes takes readers on a fascinating journey to uncover the often-unseen social forces that shape our financial behavior. Drawing on original research and engaging real-world examples, Hayes challenges not only the notion that economic decisions are purely rational but also the prevailing behavioral economics view that irrational choices stem primarily from individual beliefs. Instead, he argues that our economic choices and actions are deeply embedded in our social and cultural contexts and that understanding these influences is crucial to fully grasp the complexities of financial decision-making.

### The Price of Our Values: The Economic Limits of Moral Life

Landier, Augustin & Thesmar, David

(Univ. of Chicago Pr.)

2025 : 05 240 p. Hardback 9780226827087 ¥3,880

Modern life is an exercise in discomfort. In the face of endless injustice, how much selfishness is permissible? How do we square suffering elsewhere with our hope to thrive at home? How does one strive for the greater good while guarding one's personal interests? *The Price of Our Values* argues that the answers to these questions are economic: by weighing our sense of the personal costs associated with the outer limits of our moral beliefs.

### The Unaccountability Machine: Why Big Systems Make Terrible Decisions-and How the World Lost Its Mind

Davies, Dan

(Univ. of Chicago Pr.)

2025 : 04 304 p. Hardback 9780226843100 ¥22,310 Paperback 9780226843087 ¥3,880

In *The Unaccountability Machine*, Davies lays bare how markets, institutions, and even governments systematically generate outcomes that no one - not even those involved in making them - seems to want. Since the earliest days of the computer age, theorists have foreseen the dangers of complex systems without personal accountability. In response, British business scholar Stafford Beer developed an accountability-first approach to management called "cybernetics," which might have taken off had his biggest client (the Chilean government) not fallen to a bloody coup in 1973. With his signature blend of economic and journalistic rigor, Davies examines what's gone wrong since Beer, including what might have been had the world embraced cybernetics when it had the chance. *The Unaccountability Machine* is a revelatory and resonant account of how modern life became predisposed to dysfunction.

## - New books from Little Books, Big Profits series -

## The Nvidia Way: Jensen Huang and the Making of a Tech Giant

Kim, Tae

(W.W. Norton)

2024 : 12 272 p. Hardback 9781324086710 US\$31.99

In *The Nvidia Way*, acclaimed tech writer Tae Kim draws on more than one hundred interviews - including Jensen (as he is known) and his cofounders, the two original venture capital investors, early former employees, and current senior executives - to show how Nvidia played the longest of long games, repeatedly creating new markets and outmaneuvering competitors, including the original semiconductor giant, Intel, which now finds itself well behind the upstart. Kim offers revelations at every step, among them: An authoritative, myth-busting account of Nvidia's founding in 1993. / How Nvidia managed to overcome early missteps that would have killed most start-ups. / The benefits of Nvidia's flat organizational structure, which allows even low-level employees to contribute to the direction of the company. / How Jensen's obsession with solving the Innovator's Dilemma - the problem of an entrenched market leader falling to smaller, nimbler companies - drove him to reinvent his approach to corporate strategy. / How Nvidia saw the coming AI wave sooner than anyone else, and how it bet its future on a technology that had not yet arrived. / A rare view into Nvidia's distinct culture and Jensen's management principles, *The Nvidia Way* is a book for our moment as well as an instant classic of business history, with enduring lessons for entrepreneurs and managers alike.

## Steamships across the Pacific: Maritime Journeys between Mexico, China, and Japan, 1867-1914

Lopez, Ruth Mandujano

*Crossing Seas* (Hong Kong U.P.)

2024 : 11 204 p. Hardback 9789888876761 US\$70.00

During the nineteenth century, the transpacific world underwent profound transformation, due to the transition from sail to steam navigation that was accompanied by a concomitant reconfiguration of power. This book explores the ways in which diverse Mexican, British, Chinese, and Japanese interests participated, particularly during Porfirio Díaz's presidency at the peak of Mexico's participation in the steam network: from its 1860s outset through a time of many revolutionary changes ending with the World War, the Mexican Revolution, the opening of the Panama Canal, and the introduction of a new maritime technology based on vessels run by oil. These transoceanic exchanges, generated within these new geographies of power, contributed not only to the formation of a transpacific region but also to refashioning the Mexican national imaginary.

## A Companion to Global Environmental History. 2nd ed

McNeill, J. R. & Mauldin, Erin Stewart (ed.)

*Wiley Blackwell Companions to World History* (Wiley-Blackwell)

2025 : 02 592 p. Hardback 9781119988182 US\$185.00

*Companion to Global Environmental History* provides the cultural, intellectual, and political context for engagement with the environment in contemporary times. Presenting carefully selected essays by both pioneers in the field and younger scholars, this timely volume explores the many contours of the relationship between human societies and the natural world on which they depend. Divided into four sections, the Companion opens by describing how the relationship between society and nature has evolved over time, followed by a series of regional and national histories that illustrate how the pieces of the global puzzle fit together. The third section examines various drivers of environmental transformations across place and time, such as technology, colonialism, industrial agriculture, and climate change. The final section surveys different types of environmental thought and action around the world, addressing the relationship between religion and the environment, environmental movements in China, the history of environmentalism in Brazil, and more.

ケアの境界：アメリカにおける移民と医療のための闘い

## Borders of Care: Immigrants, Migrants, and the Fight for Health Care in the United States

Hoffman, Beatrix

(Univ. of Chicago Pr.)

2025 : 01 296 p. Hardback 9780226820842 ¥22,310 Paperback 9780226820866 ¥4,850

Drawing together stories from diverse communities from the mid-nineteenth century to the present, *Borders of Care* examines how health care in the United States has both included and excluded immigrants. Beatrix Hoffman analyzes both the health and immigration systems, adding to our understanding of why these structures, and the policies that support them, have resisted reform. Moreover, she shows that immigrants, often scapegoated as burdens on the health-care system, have strengthened it through their responses to systemic exclusion. By creating hospitals and clinics, serving as practitioners, fighting for safer workplaces, filing lawsuits, organizing and protesting, immigrants and migrants have improved medical access for everybody and advanced the idea of health care as a universal right. As accessible as it is authoritative, Hoffman's survey could not be more timely.

【政治学全般】

トマ・ピケティ & マイケル・サンデル 著『平等』

**Equality: What It Means and Why It Matters**

Piketty, Thomas & Sandel, Michael J.

(Polity Pr.)

2025 : 01 120 p. Hardback 9781509565504 US\$15.00

In this compelling dialogue, two of the world's most influential thinkers reflect on the value of equality and debate what citizens and governments should do to narrow the gaps that separate us. Ranging across economics, philosophy, history, and current affairs, Thomas Piketty and Michael Sandel consider how far we have come in achieving greater equality. At the same time, they confront head-on the extreme divides that remain in wealth, income, power, and status nationally and globally. What can be done at a time of deep political instability and environmental crisis? Piketty and Sandel agree on much: more inclusive investment in health and education, higher progressive taxation, curbing the political power of the rich and the overreach of markets. But how far and how fast can we push? Should we prioritize material or social change? What are the prospects for any change at all with nationalist forces resurgent? How should the left relate to values like patriotism and local solidarity where they collide with the challenges of mass migration and global climate change? To see Piketty and Sandel grapple with these and other problems is to glimpse new possibilities for change and justice but also the stubborn truth that progress towards greater equality never comes quickly or without deep social conflict and political struggle.

政治家の偏向化

**How Politicians Polarize: Political Representation in an Age of Negative Partisanship**

Costa, Mia

*Chicago Studies in American Politics* (Univ. of Chicago Pr.)

2025 : 03 288 p. Hardback 9780226834269 ¥22,310 Paperback 9780226838946 ¥6,310

In *How Politicians Polarize*, Mia Costa draws on survey experiments, analysis of congressional newsletters and tweets, and data on fundraising and media coverage to examine how and why politicians rely so often on negative partisan attacks. Costa shows that most Americans do not like negative rhetoric, and politicians know this. Nonetheless, these kinds of attacks can reap powerful rewards from national media, donors, and party elites. Costa's findings challenge the popular notion that Americans are motivated more by their partisan identities than by policy representation. Her research illuminates how the political ecosystem rewards negative representation and how this affects the quality of American democracy.

アメリカにおける政治資金調達の重要性

**The Money Signal: How Fundraising Matters in American Politics**

Thomsen, Danielle M.

*Chicago Studies in American Politics* (Univ. of Chicago Pr.)

2025 : 06 256 p. Hardback 9780226841120 ¥22,310 Paperback 9780226841144 ¥6,310

In *The Money Signal*, Danielle M. Thomsen offers a new perspective on the role of money in politics. She shows that fundraising matters because it is widely used as an indicator of a candidate's viability and strength, which shapes subsequent donations, dropout decisions, media attention, and rewards in office. Put simply, money is a focal point that candidates, donors, journalists, and party leaders rally around. For candidates, fundraising is a highly public form of self-presentation that pays dividends long before the election and well after the votes are cast.

アフリカ系アメリカ人の肌の濃淡と政治的関連性

**The Politics of Skin Tone: African American Experiences, Identity, and Attitudes**

Yadon, Nicole D.

*Chicago Studies in American Politics* (Univ. of Chicago Pr.)

2025 : 05 272 p. Hardback 9780226840338 ¥22,310 Paperback 9780226840352 ¥6,310

Drawing on evidence from one hundred in-depth interviews, multiple surveys, and a survey experiment, *The Politics of Skin Tone* investigates the political associations of skin tone. Yadon finds that skin tone correlates with political attitudes, particularly on issues where color-based disparities are especially pronounced such as criminal justice. Moreover, a sizable number of African Americans adopt a skin tone-based identity. In an era of shifting racial boundaries and growing color-based discrimination, *The Politics of Skin Tone* examines the implications for both scholars and policymakers.

アメリカのカール・マルクス

**Karl Marx in America**

Hartman, Andrew

(Univ. of Chicago Pr.)

2025 : 05 600 p. Hardback 9780226537481 ¥7,570

In *Karl Marx in America*, historian Andrew Hartman argues that even though Karl Marx never visited America, the country has been infused, shaped, and transformed by him. Since the beginning of the Civil War, Marx has been a specter in the American machine. During the Gilded Age, socialists read Marx as an antidote to the unchecked power of corporations. In the Great Depression, communists turned to Marx in hopes of transcending the destructive capitalist economy. The young activists of the 1960s were inspired by Marx as they gathered to protest an overseas war. Marx's influence today is evident, too, as Americans have become increasingly attuned to issues of inequality, labor, and power.

なぜみんな（白人リベラルも含め）白人リベラルが嫌いなのか

**Why Everyone Hates White Liberals (Including White Liberals): A History**

Schultz, Kevin M.

(Univ. of Chicago Pr.)

2025 : 05 256 p. Hardback 9780226824369 ¥5,820

Kevin M. Schultz efficiently lays out the array of objections to liberals - ineffective, spineless, judgmental, authoritarian, and more - in a historical frame that shows how protean the concept has been throughout the past hundred years. It turns out, he declares, that how you define a "white liberal" is less a reflection of reality and more a Rorschach test revealing your own anxieties. Sharply assessing how decades of attacks on liberals and liberalism have steadily hollowed out the center of American political life, Schultz also explains precisely what needs to be done to avoid digging ourselves even further into the hole of polarization. The ultimate goal, he argues, is to achieve political fragmentation that will fuel the rise of a true multiparty system, where ideology will matter more, not less.

グローバルな HIV 治療と法的変遷

**Governing the Global Clinic: HIV and the Legal Transformation of Medicine**

Heimer, Carol A.

*Chicago Series in Law and Society* (Univ. of Chicago Pr.)

2025 : 04 416 p. Hardback 9780226838625 ¥22,310 Paperback 9780226838649 ¥6,790

Drawing on years of research in HIV clinics in the United States, Thailand, South Africa, and Uganda, *Governing the Global Clinic* examines how growing norms of legalized accountability have altered the work of healthcare systems and how the effects of legalization vary across different national contexts. A key feature of legalism is universalistic language, but, in practice, rules are usually imported from richer countries (especially the United States) to poorer ones that have less adequate infrastructure and fewer resources with which to implement them.

Challenging readers to reconsider the impulse to use law to organize and govern social life, *Governing the Global Clinic* poses difficult questions: When do rules solve problems, and when do they create new problems? When do rules become decoupled from ethics, and when do they lead to deeper moral commitments? When do rules reduce inequality? And when do they reflect, reproduce, and even amplify inequality?

明治時代の香港ハッピー・バレーの日本人墓地

**Meiji Graves in Happy Valley: Stories of Early Japanese Residents in Hong Kong**

Nakano, Yoshiko & Challen, Georgina

*Royal Asiatic Society Hong Kong Studies Series* (Hong Kong U.P.)

2024 : 11 216 p. Paperback 9789888876853 US\$35.00

Hong Kong's Meiji-era Japanese community was one of two halves. Company executives sat atop the social ladder and karayuki-san, or prostitutes, occupied the lower echelons, with tradespeople and professionals somewhere in between. By revealing the personal journeys of these mostly forgotten Japanese, the authors aim to add to transnational perspectives on Hong Kong and Japan during the late nineteenth and early twentieth centuries, as well as increase recognition of this fragmented community's place in the development of this diverse city.

冷戦期のアジア：語りの再解釈・新しい歴史

### Cold War Asia: Unlearning Narratives, Making New Histories

Masuda, Hajimu (ed.)

*InterConnections: The Global 20th Century* (U. of North Carolina)

2025 : 05 368 p. Hardback 9781469686301 US\$120.00 Paperback 9781469686318 US\$37.95

Conventional narratives of the Cold War revolve around high-level diplomats and state leaders in Washington, Beijing, and Moscow, but this anthology challenges those narratives by revealing how ordinary people across Asia experienced the era. Heavily rooted in oral history, this study takes readers to the villages of rural Java; the jungles of northern Thailand; the indigenous tribal communities of Kerala, India; and many other places in this vast region. The essays in this collection demonstrate how the world took shape far away from the voluminously analyzed epicenters of the Soviet Union, the United States, and China. Masuda organizes each chapter around the theme of "many Cold Wars," or, more precisely, many local and social wars that were imagined as part of the global Cold War. These histories raise fundamental questions about standard Cold War narratives, encouraging readers to rethink why the Cold War still matters.

大学図書館の人中心主義のマネジメント

### Person-Centered Management in Academic Libraries

Cook, Dani Brecher et al. (ed.)

(Facet Pub.)

2024 : 11 336 p. Paperback 9781783307463 £59.95

A recent study published in the *Journal of Library Administration* draws a sobering conclusion: the accelerated exodus of library workers from the profession in the last several years is partially due to strained relationships between staff and their managers. Often, administrators and managers operate within structures which may encourage or enable poor managerial practices. This volume shines a light on a different path forward for the field, one that focuses on the people who work in libraries and how their managers can support them with empathy and skill. Stemming from insights presented at the Conference on Academic Library Management (CALM), the contributors illustrate what person-centered management looks like in practice and point the way towards implementing this approach at readers' institutions.

### Understanding Public Libraries: Management, Leadership and Ideology

Pateman, John

(Facet Pub.)

2024 : 09 208 p. Hardback 9781783306831 £100.00 Paperback 9781783306824 £50.00

*Understanding Public Libraries: Management, Leadership and Ideology* sets out a robust new analytical framework for understanding, managing and supporting public libraries. Drawing on the ideas of Marx and Maslow and their theories of dialectical materialism and cultural hegemony, experienced library leader John Pateman presents how this framework can be used in public libraries to create change and ensure their survival in the future.

アジアの遺産としてのレジリエンス

**Resilience as Heritage in Asia**

Herzfeld, Michael & Padawangi, Rita (ed.)

*Asian Heritages* (Amsterdam U.P.)

2024 : 10 218 p. Hardback 9789463728560 ￡107.00

This volume analyzes forms of collective resilience through manifestations of strength-in-fragility in selected communities in Asia (Indonesia, Japan, Malaysia, Singapore, and Thailand). Persistent resistance to communal erasure taking place through repressive policies and commercialized, multinational urban development insensitive to local communities and values often presents an uphill battle. Some of these collective efforts to survive through everyday actions, encounters, and constant struggles have successful outcomes, while others are ephemeral at best. The authors argue that persisting vernacular spaces located between resistance and co-optation are themselves a form of local cultural heritage in the rapidly urbanizing region. Recognizing these nonconformist forms of resilience as heritage acknowledges the creativity involved in challenging social and political inequalities. Supporting the cultural autonomy of local communities by acknowledging resilience as heritage contributes to social justice in the region.
