『単一言語国家での複言語教育：日本における語学教育の新しい地平』

### **Plurilingual Education in a Monolingualised Nation: Exploring New Frontiers in Language Teaching in Japan**

Pearce, Daniel Roy

*New Perspectives on Language and Education* (Multilingual Matters)

2024 : 12 224 p. Hardback 9781800417694 £109.95

This book explores alternative approaches to foreign language education in a context which is traditionally dominated by English-only approaches, and widely viewed as highly monolingual. It examines the grassroots classroom practices of teachers and their assistants involved in plurilingual education in the first longitudinal research of its type in the Japanese context. These practices are grounded in depictions of the practitioners' personal and professional trajectories through explorations of their visual linguistic autobiographies. The holistic ethnography thus deepens understanding of plurilingualism in a hitherto underexplored context, and should be of interest to students and researchers of language teaching, teacher training, language policy, sociolinguistics and plurilingualism.

### **When a Woman Ascends the Stairs (Onna ga kaidan o agaru toki)**

Russell, Catherine

*BFI Film Classics* (British Film Inst.)

2025 : 04 88 p. Paperback 9781839026430 £12.99

Mikio Naruse's *When A Woman Ascends The Stairs* (1960) combines high melodrama with modernist film language, telling the story of Keiko, a bar hostess struggling to succeed in Tokyo's Ginza district. Catherine Russell's study of the film provides an in-depth analysis of Naruse's distinctive filmmaking, from his use of two-shots in confined spaces, unique lighting techniques, and his "invisible" and "rhythmic" editing style. She analyses the recurring motif of a woman's white-stockinged feet climbing stairs, considering how this symbolizes the social dynamics of the high-class Japanese sex industry that sustains hostess bar culture.

### **The Magic Books: A History of Enchantment in 20 Medieval Manuscripts**

Lawrence-Mathers, Anne

(Yale U.P.)

2025 : 03 368 p. 66 color illus. Hardback 9780300244434 US\$38.00

In this beautifully illustrated account, Anne Lawrence-Mathers explores the medieval fascination with magic through twenty extraordinary illuminated manuscripts. These books were highly sought after, commissioned by kings and stored in great libraries. They include an astronomical compendium made for Charlemagne's son; *The Sworn Book of Honorius*, used by a secret society of trained magicians; and the highly influential *Picatrix*. This vivid new history shows how attitudes to magic and science changed over the medieval period - and produced great works of art as they did so.

Shepard Fairey is one of today's most important and influential street artists, activists, and graphic designers. *ISMs* (Princeton U.P.)

2025 : 05 152 p. 2 b/w illus. Hardback 9780691271569 ¥3,270

Since the 1980s, Marilyn Minter has been a pioneer of sex-positive feminism in the contemporary art world, pushing the boundaries of what kind of imagery is acceptable in fine art, especially when produced by women. In her photorealistic paintings, including of celebrities such as Madonna, Lady Gaga, and Lizzo, Minter draws on the aesthetics of fashion magazines, depicting cropped women's faces and bodies laden with jewels and couture accessories. In some of her work, she has explored how the meaning of pornographic imagery changes when it's appropriated and transformed by a woman artist. Gathered from interviews, articles, and other sources, *Minter-isms* is a compelling collection of quotations that presents Minter's revealing thoughts on art, women, power, sexuality, pornography, politics, and more. Filled with wisdom and humor, the book offers new insights about the life, work, and mind of this groundbreaking artist.

### Pink: The History of a Color

Pastoureau, Michel / Gladding, Jody (trans.)

*The History of a Color* (Princeton U.P.)

2025 : 02 192 p. 130 color illus. Hardback 9780691266268 ¥7,710

Pink has such powerful associations today that it's hard to imagine the color could ever have meant anything different. But it's only since the introduction of the Barbie doll in 1959 that pink has become decisively feminized. Indeed, in the eighteenth century, pink was frequently masculine, and the color has signified many things beyond gender over the course of its long history - from the prim to the vulgar, and from the romantic to the eccentric. In this richly illustrated book, Michel Pastoureau, a celebrated authority on the history of colors, presents a fascinating visual, social, and cultural history of pink in the West, from antiquity to today.

### Women Architects at Work: Making American Modernism

Hunting, Mary Anne & Murphy, Kevin D.

(Princeton U.P.)

2025 : 02 272 p. 74 color + 88 b/w illus. Hardback 9780691206691 ¥12,550

In the decades preceding World War II, professional architecture schools enrolled increasing numbers of women, but career success did not come easily. *Women Architects at Work* tells the stories of the resilient and resourceful women who surmounted barriers of sexism, racism, and classism to take on crucial roles in the establishment and growth of Modernism across the United States. Mary Anne Hunting and Kevin D. Murphy describe how the Cambridge School of Architecture and Landscape Architecture in Massachusetts evolved for the professional education of women between 1916 and 1942. While alumnae such as Eleanor Agnes Raymond, Victorine du Pont Homsey, and Sarah Pillsbury Harkness achieved some notoriety, others like Elizabeth-Ann Campbell Knapp and Louisa Vaughan Conrad have been largely absent from histories of Modernism. Hunting and Murphy describe how these innovative practitioners capitalized on social, educational, and professional ties to achieve success and used architecture to address social concerns, including how modernist ideas could engage with community and the environment. Some joined women-led architectural firms while others partnered with men or contributed to Modernism as retailers of household furnishings, writers and educators, photographers and designers, or fine artists.

**The Economics of Over-the-Counter Markets: A Toolkit for the Analysis of Decentralized Exchange**

Hugonnier, Julien et al.

(Princeton U.P.)

2025 : 05 400 p. Hardback 9780691236285 ¥9,640

Many of the largest financial markets in the world do not organize trade through an exchange but rather operate within a decentralized or over-the-counter (OTC) structure. Understanding how these markets work has become increasingly important in recent years, as illiquidity in certain OTC markets has appeared as the first signs of trouble - if not the cause itself - of the past two financial crises. However, standard models of financial markets are not suitable for studying the causes of illiquidity in OTC markets, nor the optimal policy response. *The Economics of Over-the-Counter Markets* proposes a unified search-theoretic framework designed to explicitly capture the key features of OTC markets, confront the growing set of stylized facts from these markets, and provide guidance for policies designed to promote liquidity and resiliency. This incisive book covers empirical regularities that are common across OTC markets, develops the methodological tools to analyze the benchmark theoretical models in the academic literature, and extends these models to confront the latest issues facing these markets.

**Free Gifts: Capitalism and the Politics of Nature**

Battistoni, Alyssa

(Princeton U.P.)

2025 : 08 296 p. Hardback 9780691263465 ¥7,710

Capitalism is typically treated as a force for relentless commodification. Yet it consistently fails to place value on vital aspects of the nonhuman world, whether carbon emissions or entire ecosystems. In *Free Gifts*, Alyssa Battistoni explores capitalism's persistent failure to value nature, arguing that the key question is not the moral issue of why some kinds of nature *shouldn't* be commodified, but the economic puzzle of why they *haven't* been. To understand contemporary ecological problems from biodiversity collapse to climate change, she contends, we have to understand how some things come to have value under capitalism - and how others do not. To help us do so, Battistoni recovers and reinterprets the idea of the free gift of nature used by classical economic thinkers to describe what we gratuitously obtain from the natural world, and builds on Karl Marx's critique of political economy to show how capitalism fundamentally treats nature as free for the taking. This novel theory of capitalism's relationship to nature not only helps us understand contemporary ecological breakdown, but also casts capitalism's own core dynamics in a new light.

**The Measure of Progress: Counting What Really Matters**

Coyle, Diane

(Princeton U.P.)

2025 : 04 320 p. Hardback 9780691179025 ¥5,780

The ways that statisticians and governments measure the economy were developed in the 1940s, when the urgent economic problems were entirely different from those of today. In *The Measure of Progress*, Diane Coyle argues that the framework underpinning today's economic statistics is so outdated that it functions as a distorting lens, or even a set of blinkers. When policymakers rely on such an antiquated conceptual tool, how can they measure, understand, and respond with any precision to what is happening in today's digital economy? Coyle makes the case for a new framework, one that takes into consideration current economic realities.

Cochrane, John H. et al.

The euro has survived crises unimagined at its founding: the financial meltdown of 2007-2009, the sovereign debt crisis of 2010-2012, the pandemic, and the Russian invasion of Ukraine. The European Central Bank fought these crises with dramatic policy innovations, buying up vast amounts of debt and providing large loans to banks. But now everyone expects the ECB to intervene routinely, and the euro is more fragile as a result. *Crisis Cycle* recounts this history and offers recommendations for restoring a durable monetary union.

### The Corporation in the Twenty-First Century:

#### Why (Almost) Everything We Are Told About Business Is Wrong

Kay, John

(Yale U.P.)

2025 : 01 448 p. Hardback 9780300280197 US\$35.00

The goods and services provided by the leading companies of the twenty-first century appear on your screen, fit in your pocket, or occupy your head. Ownership of the means of production is a redundant concept. Workers are the means of production; increasingly, they take the plant home. Capital is a service bought from a specialist supplier with little influence over customer businesses. The professional managers who run modern corporations do not exert authority because they are wealthy; they are wealthy because they exert authority. John Kay's incisive overhaul of our ideas about business redefines our understanding of successful commercial activity and the corporation - and describes how we have come to "love the product" as we "hate the producer." This is a brilliant and original work from one of the greatest economists.

Contra the doomsayers, Paul Blustein shows that the dollar's standing atop the world's currency pyramid is impregnable, barring catastrophic policy missteps by the US government. Recounting how the United States has wielded the dollar to impose devastating sanctions against adversaries, Blustein explains that although targets such as Russia have found ways to limit the damage, Washington's financial weaponry will retain potency long into the future. His message, however, is that America must not be complacent about the dollar; the great power that its supremacy confers comes with commensurate responsibility.

**Taxation and Resentment: Race, Party, and Class in American Tax Attitudes**

Campbell, Andrea Louise

*Princeton Studies in American Politics* (Princeton U.P.)

2025 : 06 312 p. Hardback 9780691137858 ¥19,290 Paperback 9780691137865 ¥5,780

Most Americans support progressive taxation in principle, and want the rich to pay more. But the specific tax policies that most favor are more regressive than progressive. What is behind such a disconnect? In this book, Andrea Louise Campbell examines public opinion on taxation, exploring why what Americans favor in principle differs from what they accept in practice. Campbell shows that since the federal income tax began a century ago, the rich have fought for lower taxes through reduced rates and a complicated system of tax breaks. The resulting complexity leaves the public confused about who benefits from the convoluted tax code, and leads to tax preferences that are driven by factors other than principles or interests.

Kim, Eunji

*Princeton Studies in Political Behavior* (Princeton U.P.)

2025 : 05 224 p. Hardback 9780691267197 ¥5,390

In an age of growing wealth disparities, politicians on both sides of the aisle are sounding the alarm about the fading American Dream. Yet despite all evidence to the contrary, many still view the United States as the land of opportunity. *The American Mirage* addresses this puzzle by exposing the stark reality of today's media landscape, revealing how popular entertainment media shapes politics and public opinion in an increasingly news-avoiding nation. Drawing on an eclectic array of original data, Eunji Kim demonstrates how, amid a dazzling array of media choices, many Americans simply are not consuming the news. Instead, millions flock to entertainment programs that showcase real-life success stories, such as *American Idol*, *Shark Tank*, and *MasterChef*. Kim examines how shows like these leave viewers confoundingly optimistic about the prospects of upward mobility, promoting a false narrative of rugged individualism and meritocracy that contradicts what is being reported in the news.

Macedo, Stephen & Lee, Frances

(Princeton U.P.)

2025 : 03 392 p. Hardback 9780691267135 ¥5,780

With *In Covid's Wake*, Macedo and Lee offer the first comprehensive - and candid - political assessment of how our institutions fared during the pandemic. They describe how, influenced by Wuhan's lockdown, governments departed from their existing pandemic plans. Hard choices were obscured by slogans like "follow the science." Benefits and harms were distributed unfairly. The policies adopted largely benefited the laptop class and left so-called essential workers unprotected; extended school closures hit the least-privileged families the hardest. Science became politicized and dissent was driven to the margins. In the next crisis, Macedo and Lee warn, we must not forget the deepest values of liberal democracy: tolerance and open-mindedness, respect for evidence and its limits, a willingness to entertain uncertainty, and a commitment to telling the whole truth.

She reveals how the structure of the information environment shapes the cross-platform activity of extremist organizations and movements such as the Islamic State, the Proud Boys, the Oath Keepers, and QAnon, and highlights the need to consider the online ecosystem, not just individual platforms, when developing strategies to combat extremism.

The effects of human activity are global in scope, but take shape within distinct social and ecological "patches," discontinuous regions within which the key actors may not be human, but the plants, animals, fungi, viruses, plastics, and chemicals creating our new world. *Field Guide to the Patchy Anthropocene* takes stock of our current planetary crisis, leading readers through a series of sites, thought experiments, and genre-stretching descriptive practices to nurture a revitalized natural history.

### Cross Purposes: Christianity's Broken Bargain with Democracy

Rauch, Jonathan

*Politics and Culture* (Yale U.P.)

2025 : 02 168 p. Hardback 9780300273540 US\$27.50

What happens to American democracy if Christianity is no longer able, or no longer willing, to perform the functions on which our constitutional order depends? In this provocative book, the award-winning journalist Jonathan Rauch - a lifelong atheist - reckons candidly with both the shortcomings of secularism and the corrosion of Christianity. Thin Christianity, as Rauch calls the mainline church, has been unable to inspire and retain believers. Worse, a Church of Fear has distorted white evangelicalism in ways that violate the tenets of both Jesus and James Madison. What to do? For answers, Rauch looks to a new generation of religious thinkers, as well as to the Church of Jesus Christ of Latter-day Saints, which has placed the Constitution at the heart of its spiritual teachings.

2024 : 12 288 p. Hardback 9780231217583 US\$115.00 Paperback 9780231217590 US\$26.00

Drawing on psychoanalytic theory, McGowan shows how the production of commodities explains the role of excess in the workings of capitalism. Capitalism and the commodity ensnare us with the image of the constant fulfillment of our desires - the seductive but unattainable promise of satisfying a longing that has no end. To challenge this system, McGowan turns to art, arguing that it can expose the psychological mechanisms that perpetuate capitalist society and reveal the need for limits. Featuring lively writing and engaging examples from film, literature, and popular culture, *Pure Excess* uncovers the hidden logic of capitalism and helps us envision a noncapitalist life in a noncapitalist society.

Though for decades South Korea was considered the quintessential homogeneous nation-state, the more recent influx of significant immigration has given rise to intensely debated questions about the nature of the country's national identity. Who is a "real" Korean? Who has a right to be a member of South Korean society? Which immigrants are acceptable? Who qualifies for citizenship? How should the diaspora be considered? And more fundamentally, how well does the concept of ethnic nationalism serve as an analytical concept for explaining and predicting the contours of identity, belongingness, and citizenship? The authors of *South Korea and the Politics of Ethnic Nationalism* engage with these debates, highlighting the factors and processes that complicate the many issues involved.

The regime question - often boiled down to "democracy or autocracy?" - has been central to democratic politics from the start. This has entailed not only fights over the extent of the franchise but also, crucially, ongoing struggles over core principles of democracy, the "rules of the game." In this timely study, Amel Ahmed examines the origins and development of the regime question in Western democracies and considers the implications for regime contention today. She argues that battles over the regime question were so foundational and so enduring that they constitute a dimension of politics that polarized political opponents across the regime divide.

### **On Truth in Politics: Why Democracy Demands It**

Lynch, Michael Patrick

(Princeton U.P.)

2025 : 04 272 p. Hardback 9780691231938 ¥5,780

Do any of us really care about truth when it comes to politics? Should we? In a world of big lies, denialism, and conspiracy theories, democracies are experiencing two interlocked crises: a loss of confidence in democracy itself and the growing sense among many that politics is only about power - not truth. In this book, Michael Patrick Lynch argues that truth not only can - but must - matter in politics. He shows why truth is an essential democratic value - a value we need to sustain our democratic way of life - and how it can be strengthened. Despite evidence that people are rarely motivated by truth when it comes to politics, *On Truth in Politics* argues that this isn't inevitable. Accessibly written and rigorously argued, it draws on the American pragmatist tradition to develop an original theory of the nature and value of truth in the messy world of politics. Contrary to the belief of many, political beliefs can be true or false. But if democracy is to continue to be a space of reason and not just an arena of power, we must build a better infrastructure of knowledge, including stronger schools and media, and renew our commitment to science and history.

2025 : 04 224 p. Hardback 9780691254982 ¥19,290 Paperback 9780691254999 ¥5,780

In *My Tax Dollars*, Ruth Braunstein maps the contested moral landscape in which Americans experience and make sense of the tax system. Braunstein tells the stories of Americans who view taxpaying as more than a mundane chore: antigovernment tax defiers who challenge the legitimacy of the tax system, antiwar activists who resist the use of their taxes to fund war, antiabortion activists against "taxpayer funded abortions," and a diverse group of people who promote taxpaying as a moral good. Though taxpaying is often portrayed as dull and technical, exposure to collective rituals, civic education, propaganda, and protest transforms the practice for many Americans into either a sacred rite of citizenship or a profane threat to what they hold dear. These sacred and profane meanings can apply to the act of taxpaying itself or to the specific uses of tax dollars. Despite intense disagreement about these meanings, politically diverse Americans engaged in both taxpaying and tax resistance valorize the individual taxpayer and "my tax dollars."

Over the course of twenty-five centuries, Buddhism spread from its place of origin in northern India to become a global tradition of remarkable breadth, depth, and richness. In this ambitious book, Donald S. Lopez Jr. draws on the latest scholarship to construct a detailed and innovative history of Buddhism - not just as a chronology through the centuries or as geographic movement across a map, but as a dense matrix of interconnections. Beginning with the life and teachings of the Buddha, Lopez shows how a set of evolving ideas and practices traveled north and east to China, Korea, Japan, Mongolia, and Tibet, south and southeast to Sri Lanka, Burma, Thailand, Cambodia, Laos, Vietnam, and Indonesia, and finally westward to Europe and the Americas. He provides insights on questions that Buddhism has asked and answered in different times and different places - about apocalypse, art, identity, immortality, law, nation, persecution, philosophy, science, sex, war, and writing.

### How to Have Willpower: An Ancient Guide to Not Giving In

Prudentius

*Ancient Wisdom for Modern Readers* (Princeton U.P.)

2025 : 07 216 p. Hardback 9780691220345 ¥3,460

*How to Have Willpower* brings together two profound ancient meditations on how to overcome pressures that encourage us to act against our own best interests - Plutarch's essay *On Dysopia* or *How to Resist Pressure* and Prudentius's poetic allegory *Psychomachia* or *How to Slay Your Demons*. Challenging the idea that humans are helpless victims of vice, these works - introduced and presented in vivid, accessible new prose translations by Michael Fontaine, with the original Latin and Greek texts on facing pages - emphasize the power of personal choice and the possibility of personal growth, as they offer insights and practical advice about resisting temptation.

### How to Make a Home: An Ancient Guide to Style and Comfort

Nichols, Marden Fitzpatrick (trans.)

*Ancient Wisdom for Modern Readers* (Princeton U.P.)

2025 : 07 328 p. Hardback 9780691249124 ¥3,460

Edited and elegantly translated by Marden Fitzpatrick Nichols, *How to Make a Home* gathers selections by Cicero, Vitruvius, Seneca, and others, with the original Latin or Greek on facing pages. These writings reveal the pleasures and pitfalls of the Roman practice of making one's home a cornerstone of self-expression. While the ideal home enshrined Roman virtues and could make a career, lavish building projects could lead to financial ruin and moral condemnation. These authors memorably describe such travails as deceptive staging, decorators run amok, know-it-all owners, unsupervised contractors, and buyer's remorse. Along the way, they also explain why simplicity is bliss, privacy is for nobodies, a neglected house is a sign of a neglected soul, and much more.

### How to Talk about Love: An Ancient Guide for Modern Lovers

Plato / D'Angour, Armand (trans.)

*Ancient Wisdom for Modern Readers* (Princeton U.P.)

2025 : 01 208 p. Hardback 9780691256887 ¥3,460

What is love? In poetry, songs, fiction, movies, psychology, and philosophy, love has been described, admired, lamented, and dissected in endless ways. Is love based on physical attraction? Does it bring out our better selves? How does it relate to sex? Is love divine? Plato's *Symposium* is one of the oldest, most influential, and most profound explorations of such questions - it is even the source of the idea of "Platonic love." *How to Talk about Love* introduces and presents the key passages and central ideas of Plato's philosophical dialogue in a lively and highly readable new translation, which also features the original Greek on facing pages.

### How Russians Understand the New Russia: Consolidation and Contestation

Chaisty, Paul & Whitefield, Stephen

(Princeton U.P.)

2025 : 02 208 p. Hardback 9780691258645 ¥6,180

*How Russians Understand the New Russia* provides the first longitudinal study of Russian public opinion on the system of political and economic power that replaced communism. It offers unique insights into how Russian citizens have adapted their views of the new Russia, identifying the issues that are the most - and the least - divisive. Chaisty and Whitefield track Russian public opinion on a broad range of policy questions, discuss the political importance of both voting and not voting and consider problems of nation-building and national identity. Finally, they weigh the impact of the Ukraine war on Russia's hybrid system, and whether consolidation or further contestation is more likely.

### India: 5,000 Years of History on the Subcontinent

Truschke, Audrey

(Princeton U.P.)

2025 : 06 712 p. Hardback 9780691221229 ¥7,710

Much of world history is Indian history. Home today to one in four people, the subcontinent has long been densely populated and deeply connected to Asia, Africa, Europe, and the Americas through migration and trade. In this magisterial history, Audrey Truschke tells the fascinating story of the region historically known as India - which includes today's India, Pakistan, Bangladesh, and parts of Afghanistan - and the people who have lived there. A sweeping account of five millennia, from the dawn of the Indus Valley Civilization to the twenty-first century, this engaging and richly textured narrative chronicles the most important political, social, religious, intellectual, and cultural events. And throughout, it describes how the region has been continuously reshaped by its astonishing diversity, religious and political innovations, and social stratification.

### Europe and the End of Medieval Japan

Hudson, Mark

*Past Imperfect* (Arc Humanities Pr.)

2024 : 11 130 p. Paperback 9781802701838 £16.95

Japan's transition from medieval to early modern occurred at the time of an emerging global Europe. In the 1540s European traders and missionaries began a century of dynamic cultural and economic interaction with the Japanese Islands. In the midst of civil war, over 300,000 Japanese converted to Christianity and Japan became an influential location in the Counter-Reformation's reinvention of Christianity as the first global religion. At the beginning of the seventeenth century, however, unification of Japan by the Tokugawa shoguns led to persecutions and strict limits on European presence in the country. Examining a range of topics, including the relationship between Christianity and folk religion, the introduction of firearms, new crops and cuisines, and treponemal disease, this book re-evaluates Japan's transformation from medieval to early modern in a global context.

### The Great Betrayal: The Struggle for Freedom and Democracy in the Middle East

Gerges, Fawaz A.

(Princeton U.P.)

2025 : 04 376 p. Hardback 9780691176635 ¥6,760

The Middle East is in upheaval: a widening chasm between state and society, the failure of governing elites to address citizens' genuine grievances, massive economic mismanagement - all made worse by repeated interventions by Western powers. Why has political change been so difficult to achieve? In *The Great Betrayal*, Fawaz Gerges argues that the convergence of political authoritarianism, meddling by the West, and the effects of prolonged regional conflicts have produced political paralysis and economic stagnation. The agency of everyday people has been thwarted by an authoritarian status quo that is maintained by a powerful partnership of external and internal forces.

### Iran's Grand Strategy: A Political History

Nasr, Vali

(Princeton U.P.)

2025 : 05 376 p. Hardback 9780691268927 ¥6,760

Iran presents one of the most significant foreign policy challenges for America and the West, yet very little is known about what the country's goals really are. Vali Nasr examines Iran's political history in new ways to explain its actions and ambitions on the world stage, showing how, behind the veneer of theocracy and Islamic ideology, today's Iran is pursuing a grand strategy aimed at securing the country internally and asserting its place in the region and the world. Drawing on memoirs, oral histories, and original in-depth interviews with Iranian decision makers, Nasr brings to light facts and events in Iran's political history that have been overlooked until now. He traces the roots of Iran's strategic outlook to its experiences over the past four decades of war with Iraq in the 1980s and the subsequent American containment of Iran, invasion of Iraq in 2003, and posture toward Iran thereafter. Nasr reveals how these experiences have shaped a geopolitical outlook driven by pervasive fear of America and its plans for the Middle East.

### Saudi Arabia: A Modern History

Commins, David

(Yale U.P.)

2025 : 04 384 p. Hardback 9780300258059 US\$35.00

In this comprehensive account, David Commins narrates the full history of Saudi Arabia from oasis emirate to present-day attempts to leap to a post-petroleum economy. Moving through the ages, Commins traces how the Saud dynasty's reliance on sectarianism, foreign expertise, and petroleum to stabilize power has unintentionally spawned secular and religious movements seeking accountability and justice. He incorporates the experiences of activists, women, religious minorities, Bedouin, and expatriate workers as the country transformed from subsistence agrarian life to urban consumer society.

### Conserving Agricultural Heritage and Revitalizing Communities in the Asia Pacific Region

Vafadari-Mehrizi, Kazem & Yotsumoto, Yukio

(Cambridge Scholars)

2024 : 10 216 p. Hardback 9781036410926 £70.99

This book is an important milestone in our understanding of the development and use of the Globally Important Agricultural Heritage Systems (FAO, GIAHS) and Building Back Better (BBB) community resilience initiatives. GIAHS was designed by the FAO to conserve important agricultural heritage sites of the world through active coordination with local farming communities. Since its inauguration, the program has recognized several extraordinary agricultural systems in the Asia Pacific and in Japan, ranging from the Ifugao terraces in the Philippines to the Satoyama-Satoumi traditional landscapes throughout Japan. The book looks at the key functions of traditional agriculture while promoting their use in regional revitalization through the promotion of conservation, traditional knowledge, multilateral engagement, and rural tourism.

### Exponential Sums, Hypergeometric Sheaves, and Monodromy Groups

Katz, Nicholas M. & Tiep, Pham Huu

*Annals of Mathematics Studies* (Princeton U.P.)

2025 : 06 352 p. Hardback 9780691272269 ¥31,850 Paperback 9780691272252 ¥14,480

This book is devoted to the determination of the monodromy groups attached to various explicit families of exponential sums, especially those attached to hypergeometric sheaves, arguably the simplest local systems on  $G_m$ , and to some simple (in the sense of simple to write down) one-parameter families of one-variable sums. These last families turn out to have surprising connections to hypergeometric sheaves. One of the main technical advances of this book is to bring to bear a group-theoretic condition (S+), which, when it applies, implies very strong structural constraints on the monodromy group, and to show that (S+) does indeed apply to the monodromy groups of most hypergeometric sheaves.

**Lectures on Kähler Groups**

Py, Pierre

*Princeton Mathematical Series, 52* (Princeton U.P.)

2025 : 03 408 p. Hardback 9780691247151 ¥12,550

This book gives an authoritative and up-to-date introduction to the study of fundamental groups of compact Kähler manifolds, known as Kähler groups. Approaching the subject from the perspective of a geometric group theorist, Pierre Py equips readers with the necessary background in both geometric group theory and Kähler geometry, covering topics such as the actions of Kähler groups on spaces of nonpositive curvature, the large-scale geometry of infinite covering spaces of compact Kähler manifolds, and the topology of level sets of pluriharmonic functions.

Presenting the most important results from the past three decades, the book provides graduate students and researchers with detailed original proofs of several central theorems, including Gromov and Schoen's description of Kähler group actions on trees; the study of solvable quotients of Kähler groups following the works of Arapura, Beauville, Campana, Delzant, and Nori; and Napier and Ramachandran's work characterizing covering spaces of compact Kähler manifolds having many ends. It also describes without proof many of the recent breakthroughs in the field.
