Critical Revolutionaries: Five Critics Who Changed the Way We Read

Eagleton, Terry

(Yale U.P.)

2022 : 04 336 p. Hardback 9780300264487 US\$28.00

Terry Eagleton reflects on the lives and work of T. S. Eliot, I. A. Richards, William Empson, F. R. Leavis, and Raymond Williams, and explores a vital tradition of literary criticism that today is in danger of being neglected. These five critics rank among the most original and influential of modern times, and represent one of the most remarkable intellectual formations in twentieth-century Britain. This was the heyday of literary modernism, a period of change and experimentation - the bravura of which spurred on developments in critical theory.

The last installment of Scharnhorst's three-volume biography chronicles the life of Samuel Clemens between his family's extended trip to Europe in 1891 and his death in 1910. During these years Clemens grapples with bankruptcy, returns to the lecture circuit, loses two daughters and his wife, and writes some of his darkest, most critical works in the last years of his life.

Kilcher, Andreas & Schmidt, Pavel

(Yale U.P.)

2022 : 05 368 p. 240 color illus. Hardback 9780300260663 US\$50.00

The year 2019 brought a sensational discovery: hundreds of drawings by the writer Franz Kafka (1883-1924) were found in a private collection that for decades had been kept under lock and key. Until now, only a few of Kafka's drawings were widely known. Although Kafka is renowned for his written work, his drawings are evidence of what his literary executor Max Brod termed his "double talent." Irresistible and full of fascinating figures, shifting from the realistic to the fantastic, the grotesque, the uncanny, and the carnivalesque, they illuminate a previously unknown side of the quintessential modernist author.

メトロポリタン美術館にて同名の企画展 (June 6, 2022–February 20, 2023)

This publication explores the kimono's fascinating modern history and a cross-cultural sartorial dialogue with Western fashion that continues to this day. Originally signaling the wearer's social position, marital status, age, and wealth, the kimono's traditional designs gave way to the demands of modernized and democratized twentieth-century lifestyles as well as the preferences of the emancipated "new woman." Access to Western culture inspired new patterns and production techniques, while Western-style marketing and mass production drove sales of affordable, ready-to-wear kimonos in Japanese department stores?a departure from the bespoke, haute couture tradition associated with the garment. Inspired by the kimono's silhouette, Western designers such as Paul Poiret and Madeleine Vionnet liberated the female figure from conventional tailoring and provided a new direction for modern Western fashion.

The Triumph of Broken Promises: The End of the Cold War and the Rise of Neoliberalism

Bartel, Fritz

(Harvard U.P.)

2022 : 06 440 p. Hardback 9780674976788 US\$45.00

Why did the Cold War come to a peaceful end? And why did neoliberal economics sweep across the world in the late twentieth century? In this pathbreaking study, Fritz Bartel argues that the answer to these questions is one and the same. The Cold War began as a competition between capitalist and communist governments to expand their social contracts as they raced to deliver their people a better life. But the economic shocks of the 1970s made promises of better living untenable on both sides of the Iron Curtain. Energy and financial markets placed immense pressure on governments to discipline their social contracts. Rather than make promises, political leaders were forced to break them.

How are technological advancements and social networks shaping future travel trends? Can a generational perspective be useful to help the tourism industry recover from the COVID-19 crisis? The book will be of interest to researchers and students of sociology and tourism studies, as well as tourism professionals.

Democratizing Finance: The Radical Promise of Fintech

Laboure, Marion & Deffrennes, Nicolas

(Harvard U.P.)

2022 : 04 288 p. Hardback 9780674987227 US\$35.00

The authors describe the genesis of recent financial innovations and how they have helped consumers in rich and poor countries alike by reducing costs, increasing accessibility, and improving convenience and efficiency. They connect the dots between early innovations in financial services and the wider revolution unfolding today. Changes may disrupt traditional financial services, especially banking, but they may also help us address major social challenges: opening new career paths for millennials, transforming government services, and expanding the gig economy in developed markets. Fintech could lead to economic infrastructure developments in rural areas and could facilitate emerging social security and healthcare systems in developing countries. The authors make this case with a rich combination of economic theory and case studies, including microanalyses of the effects of fintech innovations on individuals, as well as macroeconomic perspectives on fintech's impact on societies.

Danielsson, Jon

(Yale U.P.)

2022 : 08 288 p. Hardback 9780300234817 US\$30.00

Jón Danielsson argues that critical risk is generated from within, through the interactions of individuals and perpetuated by their beliefs, objectives, abilities, and prejudices. He asserts that the widespread belief that risk originates outside the financial system frustrates our ability to measure and manage it, and the likely consequences of new regulations will help alleviate small-scale risks but, perversely, encourage excessive risk taking. Danielsson uses lessons from past and recent crises to show that diversity is the best way to safeguard our financial system.

But the threat of competition has sharply decreased over the past twenty years, and today's corporate giants have come to power by using proprietary information technologies to create a tilted playing field. This development has increased economic inequality and social division, slowed innovation, and allowed dominant firms to evade government regulation. In the face of increasing calls to break up the largest companies, James Bessen argues that a better way to restore competitive balance and dynamism is to encourage or compel these companies to share technology, data, and knowledge.

Foreign aid is a primary tool of United States foreign policy, but direct financial support and ventures like the Peace Corps constitute just a sliver of the American global development pie. The Meddlers tells the story of the first international institutions to govern the world economy, including the League of Nations and Bank for International Settlements, created after World War I. These institutions endowed civil servants, bankers, and colonial authorities from Europe and the United States with extraordinary powers: to enforce austerity, coordinate the policies of independent central banks, oversee development programs, and regulate commodity prices. In a highly unequal world, they faced a new political challenge: was it possible to reach into sovereign states and empires to intervene in domestic economic policies without generating a backlash?

Brown, Megan

(Harvard U.P.)

2022 : 05 368 p. Hardback 9780674251144 US\$39.95

On their face, the mid-1950s negotiations over European integration were aimed at securing unity in order to prevent violent conflict and boost economies emerging from the disaster of World War II. But French diplomats had other motives, too. From Africa to Southeast Asia, France's empire was unraveling. France insisted that Algeria - the crown jewel of the empire and home to a nationalist movement then pleading its case to the United Nations - be included in the Treaty of Rome, which established the European Economic Community. The French hoped that Algeria's involvement in the EEC would quell colonial unrest and confirm international agreement that Algeria was indeed French. *The Seventh Member State* combats understandings of Europe's "natural" borders by emphasizing the extracontinental contours of the early union. The unification vision was never spatially limited, suggesting that contemporary arguments for geographic boundaries excluding Turkey and areas of Eastern Europe from the European Union must be seen as ahistorical.

Terzi, Alessio

(Harvard U.P.)

Economic growth is wrecking the planet. It's the engine driving climate change, pollution, and the shrinking of natural spaces. To save the environment, will we have to shrink the economy? Might this even lead to a better society, especially in rich nations, helping us break free from a pointless obsession with material wealth that only benefits the few? Alessio Terzi takes these legitimate questions as a starting point for a riveting journey into the socioeconomic, evolutionary, and cultural origins of our need for growth. It's an imperative, he argues, that we abandon at our own risk.

Guldi, Jo

(Yale U.P.)

2022 : 05 600 p. Hardback 9780300256680 US\$40.00

Jo Guldi tells the story of a global struggle to bring food, water, and shelter to all. Land is shown to be a central motor of politics in the twentieth century: the basis of movements for giving reparations to formerly colonized people, protests to limit the rent paid by urban tenants, intellectual battles among development analysts, and the capture of land by squatters taking matters into their own hands. The book describes the results of state-engineered "land reform" policies beginning in Ireland in 1881 until U.S.-led interests and the World Bank effectively killed them off in 1974.

In East Asia's largest cities, hundreds of thousands of women remain single into middle age and beyond, giving rise to a demographic transformation with profound implications for their societies. Labeled in the media as "loser dogs" and "parasites" in Japan and "leftover women" in mainland China and Hong Kong, single women in East Asia are criticized for being choosy, selfish, and overly independent. Based on ethnographic research and interviews with more than a hundred single women in Shanghai, Hong Kong, and Tokyo, *Making Our Own Destiny* is the first study to comprehensively compare the views and experiences of single women living in these three great cities?cities that stand at the forefront of the region's movement toward later marriage and rising singlehood.

What is the theory or theoretical model that allows "world" to function in a meaningful way in coordination with that knowledge domain?

Church Space and the Capital in Prewar Japan

Washington, Garrett L.

(Univ. of Hawaii Pr.)

2022 : 01 354 p. Hardback 9780824888862 US\$72.00

How did Christianity overcome the ideological legacies of its past in Japan? How did Protestantism distinguish itself from the other options in the religious landscape like Buddhism and New Religions? And how did the religious movement's social relevance and activism persist despite the new government's measures to weaken the relationship between private religion and secular social life in Japan? In *Church Space and the Capital in Prewar Japan*, Garrett Washington responds to these questions with a spatially explicit study on the influence of the Protestant church in imperial Japan. He examines the physical and social spaces that Tokyo's largest Japanese-led Protestant congregations cultivated between 1879 and 1923 and their broader social ties. These churches developed alongside, and competed with, the locational, architectural, and social spaces of Buddhism, Shinto, and Japanese New Religions. Their success depended on their pastors' decisions about location and relocation, those men's conceptualizations of the new imperial capital and aspirations for Japan, and the Western-style buildings they commissioned.

Novak, William J.

(Harvard U.P.)

2022 : 03 384 p. Hardback 9780674260443 US\$45.00

William J. Novak shows how Americans translated new conceptions of citizenship, social welfare, and economic democracy into demands for law and policy that delivered public services and vindicated people's rights. Over the course of decades, Americans progressively discarded earlier understandings of the reach and responsibilities of government and embraced the idea that legislators and administrators in Washington could tackle economic regulation and social-welfare problems. As citizens witnessed the successes of an energetic, interventionist state, they demanded more of the same, calling on politicians and civil servants to address unfair competition and labor exploitation, form public utilities, and reform police power.

Democracy is in trouble. Populism is a common scapegoat but not the root cause. More basic are social and economic transformations eroding the foundations of democracy, ruling elites trying to lock in their own privilege, and cultural perversions like making individualistic freedom the enemy of democracy's other crucial ideals of equality and solidarity. In *Degenerations of Democracy* three of our most prominent intellectuals investigate democracy gone awry, locate our points of fracture, and suggest paths to democratic renewal.

Not Thinking like a Liberal is a concise tour of diverse intellectual currents - from the Counter-Reformation and communism to pragmatism and critical theory - that shaped Geuss's skeptical stance toward liberalism. The bright young son of a deeply Catholic steelworker, Geuss was admitted in 1959 to an unusual boarding school on the outskirts of Philadelphia. Outside was Eisenhower's America. Inside Geuss was schooled by Hungarian priests who tried to immunize students against the twin dangers of oppressive communism and vapid liberal capitalism. From there Geuss went on to university in New York in the early days of the Vietnam War and to West Germany, where critical theory was experiencing a major revival.

Turning from Antiquity to the modern world, Schiavone shows how the American and the French revolutions attempted to settle old debates, introducing a new way of thinking about equality. Both the French revolutionaries and the American colonists sought democracy and equality together, but the European tradition (British Labour, Russian and Eastern European Marxists, and Northern European social democrats) saw formal equality - equality before the law - as a means of obtaining economic equality. The American model, in contrast, adopted formal equality while setting aside the goal of economic equality.

Against Constitutionalism

Loughlin, Martin

(Harvard U.P.)

Constitutionalism is universally commended because it has never been precisely defined. Martin Loughlin argues that it is not some vague amalgam of liberal aspirations but a specific and deeply contentious governing philosophy. An Enlightenment idea that in the nineteenth century became America's unique contribution to the philosophy of government, constitutionalism was by the mid-twentieth century widely regarded as an anachronism. Advocating separated powers and limited government, it was singularly unsuited to the political challenges of the times. But constitutionalism has since undergone a remarkable transformation, giving the Constitution an unprecedented role in society. Once treated as a practical instrument to regulate government, the Constitution has been raised to the status of civil religion, a symbolic representation of collective unity.

Critics of the administrative state also charge that *Chevron* deference enables unaccountable bureaucratic power.

The work highlights several factors that led to the development of Kiyozawa's ideas and demonstrates the broad influence that he and his disciples had, putting in relief both the events that led Kiyozawa to set forth his unique formulation of a modern Shin Buddhist religiosity in Seishinshugi and the ways in which those ideas became a force that shaped a large part of Japan's religious landscape well past the middle of the twentieth century.

Kōshiki (Buddhist ceremonials) belong to a shared ritual repertoire of Japanese Buddhism that began with Tendai Pure Land belief in the late tenth century and spread to all Buddhist schools, including Sōtō Zen in the thirteenth century. In *Memory, Music, Manuscripts*, Michaela Mross elegantly combines the study of premodern manuscripts and woodblock prints with ethnographic fieldwork to illuminate the historical development of the highly musical kōshiki rituals performed by Sōtō Zen clerics. She demonstrates how ritual change is often shaped by factors outside the ritual context per se—by, for example, institutional interests, evolving biographic images of eminent monks, or changes in the cultural memory of a particular lineage. Her close study of the fascinating world of kōshiki in Sōtō Zen sheds light on Buddhism as a lived religion and the interplay of ritual, doctrine, literature, collective memory, material culture, and music.

(Univ. of Hawaii Pr.)

2021 : 11 1368 p. Paperback 9780824890001 US\$85.00

The first book of this two-volume set consists largely of an annotated translation of the Record of the Transmission of Illumination (Denkōroku 傳光録) by Zen Master Keizan Jōkin 瑩山紹瑾 (1264-1325), presented together with the original Japanese text on which the English translation is based. That text is the recension of the Denkōroku published in Shūten Hensan linkai 宗典編纂委員会, ed., Taiso Keizan Zenji senjutsu Denkōroku 太祖瑩山禪師撰述伝光録 (Tokyo: Sōtōshū Shūmuchō 曹洞宗宗務庁, 2005). The Shūmuchō edition of the Denkōroku includes some items of Front Matter from earlier published editions, which are included in the English translations. Volume 1 also contains an Introduction that addresses such matters as the life of Keizan, the contents of the Denkōroku, the provenance of that work, and the textual history of its various recensions. In addition, Volume 1 includes a Bibliography that lists many works of modern Japanese- and English-language scholarship that are relevant to the academic study of the Denkōroku. The second volume contains a Glossary in two parts. Part One explains all of the Buddhist technical terms and Zen sayings that appear in the annotated translation of the Shūmuchō edition of the Denkōroku, found in Volume 1. Part Two treats all of the people, places, and texts that are named in that annotated translation.

Simas: Foundations of Buddhist Religion

Carbine, Jason A. & Davis, Erik W. (ed.)

(Univ. of Hawaii Pr.)

2022 : 01 408 p. Hardback 9780824888855 US\$72.00

Sīmās were established early on as places where core legal acts (kamma), including ordination, of the monastic community (sangha) took place according to their disciplinary codes. Sīmās continue to be deployed in the creation of monastic lineages and to function in diverse ways for monastics and non-monastics alike. As foundations of Buddhist religion, sīmās are used to sustain, revitalize, or reform Buddhist practices, notions of identity, and conceptualizations of time and history. In the last few decades, scholarly awareness of and expertise on sīmās has developed to a point where a volume like this one, which examines sīmās across numerous cultural contexts and scholarly fields of inquiry, is both possible and needed. Sīmā traditions expressed in the Theravāda cultures of Myanmar, Thailand, Laos, Cambodia, Bangladesh, and Sri Lanka constitute the dominant focus of the work; a chapter on East Asia raises questions of historical transmission beyond these areas.

最後の革命家たち：バブーフに対する陰謀裁判

The Last Revolutionaries: The Conspiracy Trial of Gracchus Babeuf and the Equals

Mason, Laura

(Yale U.P.)

2022 : 05 304 p. Hardback 9780300259551 US\$35.00

Laura Mason tells a new story about the French Revolution by exploring the trial of Gracchus Babeuf. Named by Karl Marx and Friedrich Engels as the "first modern communist," Babeuf was a poor man, an autodidact, and an activist accused of conspiring to reignite the Revolution and renew political terror. In one of the lengthiest and most controversial trials of the revolutionary decade, Babeuf and his allies defended political liberty and social equality against a regime they accused of tyranny. Mason refracts national political life through Babeuf's trial to reveal how this explosive event destabilized a fragile republic.

豊臣秀吉の来世：時代小説とポピュラーカルチャー

The Afterlife of Toyotomi Hideyoshi: Historical Fiction and Popular Culture in Japan

Furukawa, Susan Westhafer

Harvard East Asian Monographs, 447 / Harvard University, Asia Center (Harvard U.P.)

2022 : 03 260 p. Hardback 9780674267916 US\$45.00 Paperback 9780674267923 US\$25.00

By analyzing representations of the famous sixteenth-century samurai leader Toyotomi Hideyoshi in historical fiction based on *Taikōki*, the original biography of him, this book explores how and why Hideyoshi has had a continued and ever-changing presence in popular culture in twentieth- and twenty-first-century Japan. The multiple fictionalized histories of Hideyoshi published as serial novels and novellas before, during, and after World War II demonstrate how imaginative re-presentations of Japan's past have been used by various actors throughout the modern era. Using close reading of several novels and short stories as well as the analysis of various other texts and paratextual materials, Susan Furukawa discovers a Hideyoshi who is always changing to meet the needs of the current era, and in the process expands our understanding of the powerful role that historical narratives play in Japan.

Confluence and Conflict: Reading Transwar Japanese Literature and Thought

Hurley, Brian

Harvard East Asian Monographs, 450 / Harvard University Asia Center (Harvard U.P.)

2022 : 06 350 p. Hardback 9780674267909 US\$60.00

Writers and intellectuals in modern Japan have long forged dialogues across the boundaries separating the spheres of literature and thought. This book explores some of their most intellectually and aesthetically provocative connections in the volatile transwar years of the 1920s to 1950s. Reading philosophical texts alongside literary writings, the study links the intellectual side of literature to the literary dimensions of thought in contexts ranging from middlebrow writing to avant-garde modernism, and from the wartime left to the postwar right.

Kyoto Revisited: Heritage Tourism in Contemporary Japan

Prough, Jennifer S.

(Univ. of Hawaii Pr.)

2022 : 02 240 p. Hardback 9780824888534 US\$68.00

There is a charm to Kyoto. Surrounded by lush green hills, the city feels alive with nature, history, culture - and tourists. At once ancient capital, modern city, and home to numerous cultural heritage sites, Kyoto looms large in the promotion of Japanese culture at home and abroad. In the wake of years of economic recession followed by the national promotion of "cool Japan" in popular culture and tourism of the twenty-first century, anthropologist Jennifer Prough sets out to examine how the city's history and culture have been mobilized to create heritage experiences for today's tourists. The heart of her book, *Kyoto Revisited*, centers on what it means to produce these for visitors, why seeing and feeling culture and tradition appeal to both domestic and international travelers, and the challenges faced by a heritage tourism city.

A Path into the Mountains: Shugendō and Mount Togakushi

Carter, Caleb Swift

(Univ. of Hawaii Pr.)

2022 : 05 248 p. Hardback 9780824890131 US\$68.00

Japan's tradition of Shugendō has long been an object of fascination and intrigue among scholars and the general public, yet its historical development remains an enigma. *A Path into the Mountains* offers a provocative reexamination of the complex social, economic, and spiritual terrain from which this mountain religious system arose. Caleb Carter traces Shugendō through the mountains of Togakushi in Nagano prefecture, while situating it within the broader religious landscape of medieval and early modern Japan. His is the first major study to approach Shugendō as a self-conscious religious system - something that was historically emergent but conceptually distinct from the prevailing Buddhist orders of medieval Japan. Beyond the case of Shugendō, this book rethinks a range of issues in the history of Japanese religions, including exclusionary policies toward women, the formation of Shintō, and religion at the social and geographical margins of the Japanese archipelago.

Ryokan: Mobilizing Hospitality in Rural Japan

McMorran, Chris

(Univ. of Hawaii Pr.)

2022 : 04 224 p. Hardback 9780824888978 US\$64.00

Amid the decline of many of Japan's rural communities, the hot springs village resort of Kurokawa Onsen is a rare, bright spot. Its two dozen traditional inns, or ryokan, draw nearly a million tourists a year eager to admire its landscape, experience its hospitality, and soak in its hot springs. As a result, these ryokan have enticed village youth to return home to take over successful family businesses and revive the community. Chris McMorran spent nearly two decades researching ryokan in Kurokawa, including a full year of welcoming guests, carrying luggage, scrubbing baths, cleaning rooms, washing dishes, and talking with co-workers and owners about their jobs, relationships, concerns, and aspirations. He presents the realities of ryokan work - celebrated, messy, ignored, exploitative, and liberating - and introduces the people who keep the inns running by making guests feel at home.

Unthinking Collaboration: American Nisei in Transwar Japan

Buxton, A. Carly

(Univ. of Hawaii Pr.)

2022 : 03 264 p. Hardback 9780824890124 US\$68.00

Unthinking Collaboration uncovers the little-known history of Japanese Americans who weathered the years of World War II on Japanese soil. Severed from the country of their birth when the attack on Pearl Harbor abruptly halted all passenger traffic on the Pacific, these Nisei faced the years of total war as members of the Japanese populace, yet as the target of anti-American propaganda and suspicion. Whereas their white American counterparts were sequestered by Japanese authorities, placed on house arrest, or sent home on exchange ships during the war, American Nisei in Japan were left to contribute to the war effort alongside their Japanese neighbors as soldiers, cryptographers, interpreters, and in farming and manufacturing. When the dust of air raid bombings cleared, many such Nisei transitioned into roles in service of the Allied occupation and its goals of democratization and demilitarization. As censors, translators, interpreters, and administrative staff, they played integral roles in facilitating American-Japanese interaction, as well as in shaping policies and public opinion in the postwar era.

A Blue New Deal: Why We Need a New Politics for the Ocean

Armstrong, Chris

(Yale U.P.)

2022 : 02 272 p. Hardback 9780300259742 US\$30.00

Chris Armstrong reveals how existing governing institutions are failing to respond to the most pressing problems of our time, arguing that we must do better. Armstrong examines these crises - from the fate of people whose lands will be submerged by sea level rise, to the exploitation of people working in fishing, to the rights of marine animals - and makes the case for a powerful World Ocean Authority capable of tackling them. *A Blue New Deal* presents a radical manifesto for putting equality, democracy, and sustainability at the heart of ocean politics.
