Brexit and Literature: Critical and Cultural Responses

Eaglestone, Robert (ed.)

(Routledge)

2018 : 03 230 p. Hardback 9780815376682 £90.00 Paperback 9780815376699 £19.99

Brexit is a political, economic and administrative event: and it is a cultural one, too. In *Brexit and Literature*, Robert Eaglestone brings together a diverse range of literary scholars, writers and poets to respond to this aspect of Brexit. The discipline of 'English', as the very name suggests, is concerned with cultural and national identity: literary studies has always addressed ideas of nationalism and the wider political process.

Companion to Literary Theory

Richter, David H.

Blackwell Companions to Literature and Culture (Wiley-Blackwell)

2018 : 03 608 p. Hardback 9781118958674 US\$150.00

A Companion to Literary Theory is a collection of 36 original essays, all by noted scholars in their field, designed to introduce the modes and ideas of contemporary literary and cultural theory. Arranged by topic rather than chronology, in order to highlight the relationships between earlier and most recent theoretical developments, the book groups its chapters into seven convenient sections: I. Literary Form: Narrative and Poetry; II. The Task of Reading; III. Literary Locations and Cultural Studies; IV. The Politics of Literature; V. Identities; VI. Bodies and Their Minds; and VII. Scientific Inflections.

The Routledge Handbook of Digital Writing and Rhetoric

Alexander, Jonathan & Rhodes, Jacqueline (ed.)

Routledge Handbooks in Communication Studies (Routledge)

2018 : 04 466 p. Hardback 9781138671362 £180.00

Increasingly, all of us must navigate networks of information, compose not just with computers but an array of mobile devices, increase our technological literacy, and understand the changing dynamics of authoring, writing, reading, and publishing in a world of rich and complex texts. Given such changes, and given the diverse ways in which younger generations of college students are writing, communicating, and designing texts in multimediated, electronic environments, we need to consider how the very act of writing itself is undergoing potentially fundamental changes.

A Companion to Renaissance Poetry

Bates, Ann

Blackwell Companions to Literature and Culture (Wiley-Blackwell)

2018 : 02 656 p. Hardback 9781118585191 US\$150.00

Covering the period 1520-1680, *A Companion to Renaissance Poetry* offers 46 essays which present an in-depth account of the context, production, and interpretation of early modern British poetry. It provides students with a deep appreciation for, and sensitivity toward, the ways in which poets of the period understood and fashioned a distinctly vernacular voice, while engaging them with some of the debates and departures that are currently animating the discipline.

Shakespeare's Theatre: A History

Dutton, Richard

(Wiley-Blackwell)

2018 : 03 496 p. Hardback 9781405115131 US\$150.00

Shakespeare's Theatre: A History examines the theatre spaces used by William Shakespeare, and explores these spaces in relation to the social and political framework of the Elizabethan era. The text journeys from the performing spaces of the provincial inns, guild halls and houses of the gentry of the Bard's early career, to the purpose-built outdoor playhouses of London, including the Globe, the Theatre, and the Curtain, and the royal courts of Elizabeth and James I. The author also discusses the players for whom Shakespeare wrote, and the positioning - or dispoitioning - of audience members in relation to the stage.

Narrative Memory, Trauma and Recovery in Japanese Literature and Film

Stahl, David C.

Routledge Contemporary Japan (Routledge)

2018 : 03 240 p. Hardback 9781138019362 £105.00

Focusing on depictions of protagonists who dissociated their childhood, adolescent and young adulthood traumas, failed to mourn their losses, developed psychological defense mechanisms of incorporation, substitution and revenge, were repeatedly triggered by unconscious situational reminders of their unintegrated traumas to reenact them and were unable to convert traumatic memory into narrative memory and thereby facilitate self-awareness and recovery, this volume will concentrate on literary and filmic texts in which traumatized protagonists are eventually able, through the creation of narrative memory and other means, to effect partial and advanced recovery.

The Rise and Fall of Modern Japanese Literature

Treat, John Whittier

(Univ. of Chicago Pr.)

2018 : 04 368 p. Hardback 9780226811703 ¥14,070 Paperback 9780226545134 ¥4,690

The Rise and Fall of Modern Japanese Literature tells the story of Japanese literature from its start in the 1870s against the backdrop of a rapidly coalescing modern nation to the present. John Whittier Treat takes up both canonical and forgotten works, the non-literary as well as the literary, and pays special attention to the Japanese state's hand in shaping literature throughout the country's nineteenth-century industrialization, a half-century of empire and war, its post-1945 reconstruction, and the challenges of the twenty-first century to modern nationhood.

Routledge Studies in World Englishes (Routledge)

2018 : 06 224 p. Hardback 9781138220263 £105.00

Why is English language proficiency in Japan and Vietnam so low? Why do EFL teachers struggle with curriculum changes? Does professional development actually serve the need of teachers? This book answers these questions by examining how the professional development of EFL teachers has been addressed and defined in the government language policies in Japan and Vietnam and identifies issues surrounding the professional development of EFL teachers in these countries.

Babatsouli, Elena (ed.)

Studies in Phonetics and Phonology (Equinox)

2018 : 01 358 p. Hardback 9781781795644 £90.00

Child and adult-learner speech in the course of development constitute separate linguistic systems in their own right: they are intermediate states whose endpoint is, or ought to be, mastery of targeted speech either in a first or a second language. These intermediate states form the theme of this volume which introduces the term protolanguage (to refer to child language in development) and juxtaposes it with interlanguage (to refer to language development in adulthood).

2018 : 04 388 p. Hardback 9780415708036 £110.00 Paperback 9780415708043 £40.99

Second Language Processing is the first textbook to offer a thorough introduction to the field of second language processing (SLP). The study of SLP seeks to illuminate the cognitive processes underlying the processing of a non-native language. While current literature tends to focus on one topic or area of research, this textbook aims to bring these different research strands together in a single volume, elucidating their particularities while also demonstrating the relationships between them.

Routledge Studies in Sociolinguistics (Routledge)

2018 : 02 160 p. Hardback 9781138104631 £115.00

This book is the first in a unique series drawn from an interdisciplinary, longitudinal project entitled 'Thirty Years of Talk.' For 30 years, Okano recorded ethnographic interviews and collected data on the language of working class women in Kobe, Japan. This long-range study sketches the transitions in these women's lives and how their language use, discourse and identities change in specific sociocultural contexts as they shift through different stages of their personal and public lives.

Dovchin, Sender

Routledge Studies in Sociolinguistics (Routledge)

2018 : 06 176 p. Hardback 9781138051676 £115.00

The title seeks to show how people are embedded culturally, socially and linguistically in a certain peripheral geographical location, yet are also able to roam widely in their use and take-up of a variety of linguistic and cultural resources. Drawing on data examples obtained from ethnographic fieldwork trips in Mongolia, a country located geographically, politically and economically on the Asian periphery, this book presents an example of how peripheral contexts should be seen as crucial sites for understanding the current sociolinguistics of globalization.

French, Thomas (ed.)

Perspectives in Economic and Social History (Routledge)

2017 : 08 194 p. Hardback 9781138195899 £105.00

The Occupation era (1945-1952) witnessed major change in Japan and the beginnings of its growth from the ashes of defeat towards its status as a developmental model for much of the world. The period arguably saw the sowing of the seeds of the post-war flowering of what some term the 'postwar Japanese economic miracle'. However, some scholars dispute this position and argue that the Occupation's policies and impacts actually hindered Japan's recovery. This volume addresses this question and others surrounding the business and economic history of this crucial period.

(World Scientific)

2018 : 07 200 p. Hardback 9789813233775 ¥9,110

Trading floors in the 60s and 70s involved hundreds of people shouting bids and offers in multi-coloured jackets standing next to each other in different pits, gesticulating with their hands. The decibel levels were extremely high, so high that traders who traded every day had hearing problems later in life. In 1980, the first widely used electronic trading exchange was established. On September 1, 1969, the California Commodity Advisory Research Project (CCARP) was formed and housed at UC Berkeley. The project's first aim was to examine the feasibility of an electronic, for-profit exchange. At the time, there were only 12 exchanges worldwide, and none were for-profit - or electronic. Read first-hand from Richard Sandor, the project director and how CCARP was 20 years too early for the financial world.

International business expert, Robert Grosse, draws on scholarly research to construct an appealing argument for why the four day work week benefits both the organization and the employee. Research has demonstrated that longer work hours harm the individual and don't amount to a more effective organization, which begs the question: then why do it? The book goes beyond merely arguing that a reduced work week is a good idea. It delves into why, explores the means for achieving it, and scrutinizes the barriers to getting there.

This book provides an in-depth study of Japanese whaling culture, emphasizing how the Japanese have considered whales and whaling in relation to their understanding of nature and religion. It examines why and how the Japanese have mourned the deaths of whales, treating them as if they were human beings, and assesses the relevance of this culture to nature conservation and management of sustainable use of natural resources.

Routledge Studies on Asia in the World (Routledge)

2018 : 06 288 p. Hardback 9781138093256 £105.00

In the context of the end of the Cold War and the spread of globalism, sub-regions are attracting attention as new social units of international society never before observed. In the "second wave" of regionalism that became active in the 1980s, a new regionalism, which differed qualitatively from the old regionalism, expanded globally. This "New regionalism" is characterized by multi-dimensionality, complexity, fluidity, and non-conformity, and within it we cannot overlook the fact that spaces on a new scale, such as sub-regions, are being formed in various parts of the world.

Embracing Asia in China and Japan: Asianism Discourse and the Contest for Hegemony, 1912-1933

Weber, Torsten

Palgrave Macmillan Transnational History Series (Palgrave Macmillan)

2018 : 01 334 p. Hardback 9783319651538 EUR99.99

This book examines how Asianism became a key concept in mainstream political discourse between China and Japan and how it was used both domestically and internationally in the contest for political hegemony. It argues that, from the early 1910s to the early 1930s, this contest changed Chinese and Japanese perceptions of 'Asia', from a concept that was foreign-referential, foreign-imposed, peripheral, and mostly negative and denied (in Japan) or largely ignored (in China) to one that was self-referential, self-defined, central, and widely affirmed and embraced.

Since the opening up of China in 1979, the country had experienced phenomenal economic growth over the decades and overtook Japan as the second-largest economy in 2010. With the establishment of a conservative administration led by Shinzo Abe in December 2012 and Xi Jinping's ascendance to power as the General Secretary of China's ruling party a month earlier, the two countries intensified their commitments in aid to Sub-Saharan Africa. Surveying the Japanese and Chinese aid in Sub-Saharan Africa, this book examines the two Asian giants' policies and achievements in past decades and discusses future directions of their aid initiatives. *Japan and China: A Contest in Aid to Sub-Saharan Africa* is recommended for those interested in understanding East Asian international relations and contemporary aid trends and issues in Sub-Saharan Africa.

The Confucian Concept of Learning: Revisited for East Asian Humanistic Pedagogies

Kwak, Duck-Joo et al. (ed.)

Educational Philosophy and Theory (Routledge)

2018 : 04 130 p. Hardback 9781138489196 £115.00

What does the Confucian heritage mean to modern East Asian education today? Is it invalid and outdated; or an irreplaceable cultural resource for an alternative approach to education? And to what extent can we recover the humanistic elements of the Confucian tradition of education for use in world education? Written from a comparative perspective, this book attempts to collectively explore these pivotal questions in search of future directions in education. In East Asian countries like China, Japan, Korea and Taiwan, Confucianism as a philosophy of learning is still deeply embedded in the ways people think of and practice education in their everyday life, even if their official language puts on the western scientific mode.

This book is a study of cross-border activity in and around Japanese universities, employing 'Asia' as the cornerstone of inquiry. It offers qualitative, case-based analysis of Asia-oriented student mobility and partnership projects, framed by critical evaluation of discourses and texts concerning Japan's positioning in an era of Asian ascendancy. This combination of Asia as theme and international higher education as empirical subject matter allows the book to shed new light on some of the fundamental policy currents in contemporary Japan.

The modern conception of sacrifice is at once cast as a victory of self-discipline over desire and condescended to as destructive and archaic abnegation. But even in the Old Testament, the dual natures of sacrifice, embodying both ritual slaughter and moral rectitude, were at odds. In this analysis, Terry Eagleton makes a compelling argument that the idea of sacrifice has long been misunderstood.

The Great Irish Famine remains one of the most lethal famines in modern world history and a watershed moment in the development of modern Ireland - socially, politically, demographically and culturally. In the space of only four years, Ireland lost twenty-five per cent of its population as a consequence of starvation, disease and large-scale emigration. Certain aspects of the Famine remain contested and controversial, for example the issue of the British government's culpability, proselytism, and the reception of emigrants. However, recent historiographical focus on this famine has overshadowed the impact of other periods of subsistence crisis, both before 1845 and after 1852.

Animism in Contemporary Japan

Yoneyama, Shoko

Routledge Contemporary Japan (Routledge)

2018 : 09 224 p. Hardback 9781138228030 ￡105.00

水俣の漁師 緒方正人、作家の石牟礼道子、社会学者の鶴見和子、映画監督の宮崎駿にみるアニミズムの思想を考察。

The book explores the notion of animism through the lens of four prominent figures in Japan: Minamata fisherman Ogata Masato, Minamata writer Ishimure Michiko, sociologist Tsurumi Kazuko, and animator Miyazaki Hayao. It contends that animism is at the core of the work of these people who represent contemporary Japan in the fields of citizens' movements, literature, sociology and popular culture, respectively; and that animism is the conclusion they came up with as a means to survive modernity. The book illustrates how they moved toward that conclusion. By adopting a biographical approach, the book aims to illuminate animism, which has been a blind spot of modernity, and thus address two big lacuna in social science: human-nature relationships and the question of soul and spirituality.

Compared with their counterparts in China, the Japanese treaty ports cast a small shadow. They were far fewer - only four really mattered - and lasted for just under fifty years, while the Chinese ports made their centenary. Yet the Japanese ports were important. The thriving modern cities of Yokohama and Kobe had their origins as treaty ports. Nagasaki, a major centre of foreign trade since at least the sixteenth century, may not have owed so much to its treaty-port status, but it was a factor in its modern development.

Give and Take offers a new history of government in Tokugawa Japan (1600-1868), one that focuses on ordinary subjects: merchants, artisans, villagers, and people at the margins of society such as outcastes and itinerant entertainers. Most of these individuals are now forgotten and do not feature in general histories except as bystanders, protestors, or subjects of exploitation. Yet despite their subordinate status, they actively participated in the Tokugawa polity because the state was built on the principle of reciprocity between privilege-granting rulers and duty-performing status groups.
